PACIFIC'S OIL SCARCITY IS DIVERTING SHIPPING.

Failure to Develop Public Land Sends Oriental Lines to the Gulf and Atlantic.

BY ROBERT B. ARMSTRONG.
(EXCLUSIVE DISPATCH.)

WASHINGTON, July 1.—Unless California and other western oil lands are developed, including the naval reserves, virtually all the shipping to the Orient will be diverted to the Gulf and Atlantic ports, via the Panama Canal. This is the statement made to the Bureau of Mines by Maurice Leach, of Seattle, attorney for the Alaska Shipping Commission. Furthermore, he has the facts which appear to confirm his conclusion.

One of the solutions which he hopes to see for the situation, in addition to the passage of the oil-leasing bill, is a pipeline from the Wyoming field to the Pacific Coast via the water-level route, probably down the Snake and the Columbia rivers, and distribution at Portland, Seattle or some other port in the Northwest. The necessary lift, he figures, will not exceed 500 feet and would be much less of an undertaking than the contemplated pipeline to the Gulf, where the Wyoming oil would have to come into competition with the oil from a field now already overproducing with consequent soft prices. This feature of his observations will have immediate attention of the Bureau of Mines.

Fuel oil is now selling in Seattle at \$1.85 per barrel and at San Francisco and other points on the Coast as low as \$1.60, but that is the minimum for Pacific shipping. The same grade is selling at \$1.05 per barrel in New York and less than a dollar in Gulf ports. Most of the modern ships of the Orient burn oil and the tendency in building ships is to provide for oil burners or Diesel engines. Steamship radars and cargo space are greatly increased.

In order to get cheap fuel for the oil burners the Japanese line already has diverted some of its boats to the eastern seaboard via the Panama Canal and the movement is increasing daily. If this is continued the West Coast will be divested of all but coal burners; and as the scarcity of ships is now very apparent the whole shipping future of the Pacific Coast is bound up with the oil industry.

Unless some method for increasing production is devised by Congress there is little chance of saving the Coast shipping, according to Mr. Leach, and he cites Texas as an example. Texas controls her own public lands and has been generous to prospectors for oil. The result is apparent in the great oil development in the State. Oklahoma, entirely on Indian lands under liberal leases from the Indian Commissioner's office, approved by the Secretary of the Interior.

In all of the so-called public land States there is no development due to the adverse laws and the withdrawals from entry of some of the richest oil-bearing lands in the country now known as the naval reserves. Most of these are in California and vast sums of money are involved which cannot be released until some form of legislation is enacted.

ROAD BOND ISSUE WINS

Voters Approve by Six to One.

Tremendous Majorities All Over State for Highway Construction.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, July 1.—Emphatic approval was given today by California voters to a State highway bond issue of \$40,000,000, making a total of \$75,000,000 for highway construction in the last decade.

Every section of the State rolled up tremendous majorities for the issue; and, because of the lack of any organized opposition, the success of the measure was apparent from the opening of the polls.

The vote nowhere was heavy, probably less than one-third of the registered vote being cast. The ratio in favor of the bonds was about 6 to 1.

Interest in highway construction by the State developed in 1910 when the first bond election carried by a majority of more than 12,000. The succeeding issues developed overwhelming majorities.

The present issue originated in the last Legislature as a reconstruction measure to provide employment for returning veterans and to complete unfinished gaps, laterals contemplated under the two previous issues and new roadways, making a highway system covering the State.

BY EIGHT TO ONE.

Returns at 10 o'clock tonight from sections of the State's most populous counties from San Diego to Shasta gave this result:

For the bonds, 42,115; against, 6,548.

San Joaquin Valley counties of San Joaquin, Kern, Stanislaus, Merced and Kings, gave: For, 20,565; against, 2,544.

San Francisco county complete gave: For, 26,630; against, 2,518.

The Northern California counties of El Dorado, Sacramento, Humboldt and Shasta gave: For, 27,077; against, 436.

L. A. Nares, chairman of the California Good Roads Campaign Committee, said that the bond issue campaign in charge, predicted tonight on the basis of scattered returns that the issue had been approved by at least an 8 to 1 vote.

"Apparently the vote was light, but, as expected, owing to a general opinion that thousands away from the polls, many believing that the vote was not necessary," said Mr. Nares.

"However, the bonds have carried and California takes her third stride forward in the matter of good roads, putting herself in the lead of every State in the nation."

Early returns in Los Angeles city and county last night indicated the proposal for a \$40,000,000 bond issue for the improvement of the State's highways was carried here by about six to one. The vote was light.

The official count of the total vote for the first 745 precincts reported, of which are in the city, showed, according to figures announced at the office of the county registrar of voters, for the bonds, 21,231; against, 3,335. This is a proportion of about six to one, which pretty steadily maintained throughout the early hours of the count. The first city precinct to report was No. 715, where the vote was: For the bonds, twenty; against, two.

Total registration in the city was 12,443 and in the county 118,791, a total of 131,234.

In the city, it was stated, less than 15 per cent. of the registered voters cast their ballots; in the county the vote was about 15 per cent.

Earliest returns from outside the city indicated the vote in the county was also exceedingly light, with the ratio of votes for and against the issue about the same as inside the municipality.

RETURNS ELSEWHERE.

The count in the four precincts at Downey was: For, 107; against, 21. Total vote 128, as against a normal total of 400.

At Monrovia the vote stood: For, 254; against, 49; total, 303. The normal vote there is 1200, with a ratio of 20 to 1.

Riverside city complete reported: For, 761; against, 95; total vote for the thirty-three precincts, 856, which is 18 per cent. of the registration.

Riverside county, including the city, is estimated to give 1500 votes for the bonds and 175 against.

Sixty-six out of eighty-two Pasadena precincts showed 2703 for the bonds, 288 against.

Sierra Madre voted: Yes, 105; No, 21.

Whittier: Yes, 416; No, 47. Pomona: Yes, 819; No, 122.

Fifty precincts out of sixty-seven in Orange county gave 2569 for the bonds, 303 against. Santa Ana was 94 to 75 for the bonds.

Imperial county went strong for the State bonds and also for its own issue of \$1,000,000 for county highways.

Ventura county figures indicate that that district went at least four to one for the bonds.

LARGE MARGINS.

San Bernardino county partial returns gave 1518 for the bonds and 158 against. The city of San Bernardino voted 385 yes and 85 no.

Five complete precincts out of twenty-seven in Kings county gave for the bonds 482 and against 44.

BRITISH R-34 OFF FOR AMERICA.

LONDON, Wednesday, July 2.—The Air Ministry received a wireless message at about 6 o'clock this morning from the R-34, which was then off Rathlin Island, off the north coast of Ireland, and was three miles northwest of Fairhead.

Five Members of the Crew of the British Dirigible R-34.

From left to right: Lieut. Rampin, L. F. Sparks, A. G. Sparks, Sergt.-Maj. A. J. Poole and W. H. Thompson.

MANY ARE INJURED IN EXPLOSION OF BALLOON

NAVAL DIRIGIBLE IS WRECKED NEAR BALTIMORE; RAPID EXPANSION CAUSE.

(BY A. P. NIGHT WIRE.)

BALTIMORE, July 1.—The big navy dirigible C-8, commanded by Lieut. N. J. Learned with a crew of six men and two passengers bound from Cape May, N. J., to Washington, exploded with terrific force just after landing at Camp Holabird, near this city at 12:30 today to adjust rudder trouble.

The explosion shook the cantonment and the eastern section of the city like an earthquake. The great balloon instantly became a mass of flames.

Shooting flames and bits of blazing fragments scattered over the crowd of nearly 200 persons, men, women and children who had gathered on the camp field to see the monster flier and many of whom were blown partly across the field.

Seventy-five persons, mostly women and children, were burned or otherwise injured. None of the officers or crew of the C-8 were hurt, though several of them sustained severe shock.

According to the commander the explosion is believed to have been caused by rapid expansion caused by heat.

Some of the persons including Camp Holabird men who were near the dirigible were blown twenty or thirty feet by the concussion. Houses a mile away were shaken and injured. Mrs. Rank, who was on the second floor, was severely injured.

Relief was organized immediately from the Camp Holabird hospital and sixty persons went there to have their wounds dressed, about twenty being burned seriously enough to remain in the institution.

Samuel de Luca, a Young Men's Christian Association officer, who was standing on the railing of the sixth floor of the sixth building, was flung several feet out of the range of the fire, badly burned about the hands and legs.

Joseph Kudak, 13, who was burned about the face and body, figured in one of the freakish effects which the explosion produced. They were driving near the balloon in a little cart behind a pony. The explosion blew them out of their cart and threw them some distance. It threw the pony to the earth violently.

AMERICA WARNS RUSSIA.

Soviet Government Told Reprisals Against Our Citizens Won't be Tolerated.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 1.—The Russian soviet government was warned by the United States today in a message sent through the American legation at Stockholm that reprisals against American citizens in Russia would arouse intense sentiment in the United States against the soviet heads.

The warning was contained in a cablegram sent by Acting Secretary of State Phillips in reply to a protest from Soviet Foreign Minister Tchitcherine against the reported arrest of L. A. C. K. Martens, the soviet representative in New York. The protest intimated that reprisals might be taken against Americans in Russia.

Secretary of Labor Wilson wrote Senator King, Democrat, Utah, today that there was no law under which Martens and other aliens of the Russian soviet bureau at New York could be deported. The Secretary said, however, that the activities of the bureau were being closely watched.

Secretary Phillips, in his reply, asserted that Martens had been arrested, but said it was understood he was claiming official status as "the representative of a regime at Moscow which the United States has not recognized." The reply also said Martens was a German citizen and denied that the American government contemplated any action against law-abiding Russians in the United States.

The message sent by Foreign Minister Tchitcherine was made public by the State Department as follows: "The Commissariat for Foreign Affairs has learned with indignation."

(Continued on Fifth Page.)

QUAKE VICTIMS GIVEN AID.

ROME, Monday, June 30.—Military auto trucks and Red Cross ambulances have gone to the earthquake zone near Florence. The City Council of Rome also has sent a detachment from the fire department to the scene.

FLORENCE, Monday, June 30.—In many places throughout the district visited by the earthquake Sunday the number of injured has made it impossible to transport the suffering to hospitals because of the lack of conveyances. Impromptu nurses have taken care of the injured ones in the fields and along the dusty roads.

Possessors of automobiles have given great assistance, rushing from spot to spot and bringing help, medicine and bandages.

In spite of heartrending cries from ruins, rescue work at many places could not proceed until necessary tools had been brought from Florence. Many persons are believed to have died under the shattered debris of their homes.

STRIKE TROUBLES IN CHICAGO ARE REDUCED.

CHICAGO, July 1.—Strike troubles of city employees were greatly reduced today when approximately half the firemen voted to accept the \$300 a year increase granted by the City Council last night, and 800 City clerical workers returned to their desks.

Engineers, including those of the fire department, still held out for higher pay.

The street department remained tied up, the 5000 workers who struck a week ago refusing to accept the Council's increase of 50 cents a day instead of \$1 demanded.

In no instances were the various forces given what they demanded, but the agreement to pay the union scale of wages to all organized, skilled and unskilled labor, was received with approval.

The firemen and policemen were granted an increase from \$1500 a year to \$1800; their demand being \$2000. Street cleaners and garbage collectors were given a raise of 50 cents a day, their demand being for \$1.

RODMAN TAKES CHARGE OF THE PACIFIC FLEET.

CEREMONY BRIEF; FLAGSHIP NEW MEXICO AND FLOTILLA LEAVE JULY 14.

(BY A. P. NIGHT WIRE.)

NEW YORK, July 1.—With a brief ceremony in the presence of thirty officers and 300 members of the crew of the battleship New York, Admiral Hugh Rodman, who as rear-admiral was commander of the sixth battleship squadron, composed of American naval vessels serving with the British fleet, assumed command of the Pacific fleet at New York navy yard today. After the four-star red admiral's flag had been hoisted on the New York, which was his flagship in European waters, Admiral Rodman read his orders. Officers and crew saluted.

Admiral Rodman's flagship in the Pacific will be the New Mexico, which is expected to lead a naval flotilla assigned to the Pacific fleet from New York about July 14.

THE DAY'S NEWS SUMMED UP

THE SKY. Clear. Wind at 5 p.m. southwest; velocity, 10 miles. Thermometer highest, 75 deg.; lowest, 54 deg. Forecast: Wednesday fair except cloudy near the coast in the morning.

For complete weather data see last page of this section.

THE CITY. Referendum petitions to remove the menace of the dangerous community property law were circulated and received the practically unanimous support of the business interests.

Earth-circling drama was revived when the widow of a Pasadena doctor who figured in a famous love-tangle case joined his relatives in a fight to break his will leaving money to a songstress.

Patrolman brought from the Argentine the city's most notable war trophy, a German machine gun which put 100 Yankees out of commission.

Tip from here resulted in an L.W.W. raid at Stockton and the capture of seventeen alleged destructionists; the officers scouted the threat of a local bomb plot.

"Shoot first and talk later" were the orders given to guards following the sabotage which resulted in the breaking of long-distance telephone lines in the San Gabriel Valley.

SOUTHERN CALIFORNIA. School muddle at Pasadena becomes more complicated as new superintendent appears upon the scene.

Crowder of Oreg. county lands burial permit for father and son.

who died under suspicious circumstances at Anaheim.

Santa Barbara mid-summer festa on in earnest.

Discussions concerning attendance at Sunday-school occupy church conference at Santa Monica.

PACIFIC COAST. Concentration camp for protection of Americans in Farall-Jiminez district from Villa established at Jiminez.

Acting on the advice of their attorney, brewers of San Francisco are to resume manufacture of 2% per cent. beer.

War Department has authorized construction of wire fence two miles in length between Calexico, Cal., and Mexicali, Mex.

House passes army appropriation bill, blockades cause recess of Congress to be postponed; night sessions started.

Congress planning to enact new wartime prohibition enforcement measure to prevent sale of 2% per cent. beer.

FOREIGN. Kaiser is informed of signing of peace treaty, but had already been advised of government's intention to do so.

Bela Kun, head of Hungarian soviet government, desires conference of the states of the former Austrian Empire.

MO HOLD UP NEAR BEER

Congress Planning for Action.

Judiciary Committee Meets on Monday to Draft New Enforcement Bill.

Decisions of Federal Judges in East and West are Exactly Opposite.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 1.—Congress and the Department of Justice moved today to stop the sale of 2% per cent. beer under the war-time prohibition act.

Prohibition leaders of the House, after a series of conferences, obtained a call for a meeting Monday of the Judiciary Committee, which is expected to agree promptly on an independent bill for enforcement of the war-time law defining intoxicating liquors as containing more than one-half of 1 per cent. alcohol, and to recommend passage of such a bill by the House at the earliest possible moment. At the same time the Department of Justice made it plain its agents would enforce the act according to its interpretation that anything containing more than one-half of 1 per cent. alcohol cannot be legally manufactured or sold.

Decisions of Federal Judge Ross at Baltimore in favor of the brewers and 2% per cent. beer and of Federal Judge Sawtelle at San Francisco, against the brewers and such beer threw the entire legal status of low alcoholic beer into uncertainty. Either the Baltimore, the San Francisco, or one of the many other cases expected to arise soon will be appealed to the Supreme Court of the United States. However, action by Congress within a few days would prevent the Supreme Court from rendering a decision by the Supreme Court unnecessary for as far as stopping the manufacture and sale is concerned.

TO PROSECUTE ALL.

Atty.-Gen. Palmer made it clear today that while his department would proceed in an orderly manner without requiring the arrest of speculators, offenders against the prohibition law could expect nothing else than the most vigorous prosecution. Pending the settlement of test cases it may be that evidence in numerous similar cases will be gathered without arrests being made, but if the government wins in the end, all will be prosecuted.

"If the government wins in the end, all will be prosecuted," Atty.-Gen. Palmer said today. "The department does not intend, however, to be swept off its feet the first day that the law is violated. We will proceed in an orderly fashion to establish whether intoxicating beverages proscribed by the law include those having less than 2% per cent. alcohol."

WANTS COURT DECISION.

Mr. Palmer reiterated that all persons violating the law might expect prosecution, but that the department would not attempt wholesale arrests.

The Attorney-General said the test cases in New York raised in a decision requiring the prosecution to prove that the beer in question was intoxicating in each individual case, and therefore a decision was needed to give a clear-cut interpretation of whether 2% per cent. beer was, in fact, intoxicating. If upheld by the Supreme Court such a decision would be applicable to the entire country.

In meantime the Attorney-General is hopeful that Congress will pass legislation for the enforcement of war-time prohibition, which would do away with existing uncertainties.

AGREE UPON PLAN.

The House Judiciary Committee (Continued on Second Page.)

STATE BREWERIES WILL RESUME.

SAN FRANCISCO, July 1.—Practically all breweries throughout California will resume the manufacture and sale of beer of not more than 2% per cent. alcoholic content tomorrow, according to a statement issued here tonight by Theodore A. Bell, general counsel of the California State Brewers' Association, at the conclusion of a meeting attended by representatives of brewing interests throughout the State.

Bell said the brewers decided to continue operating their plants as a result of a decision returned here today by United States District Judge Sawtelle of Arizona, denying "without prejudice" an application for restraining orders directed against Justus S. Wardell, Collector of Internal Revenue.

Judge Sawtelle's verdict pointed out that it would be possible to reinstate the action, which was brought by a local brewing concern, if Wardell should attempt confiscation proceedings against that company's property before a test case brought in New York by a brewing company has been decided.

CHICAGO SALOONS NOW SOFT DRINK PARLORS.

WAR-TIME BEER EXHAUSTED; BREWERS UNDECIDED; HINKY DINK'S CLOSED.

(BY A. P. DAY WIRE.)

CHICAGO, July 1.—More than 3000 of Chicago's 6000 saloons opened this morning for the sale of soft drinks. About 500 were converted into ice cream parlors and restaurants overnight.

LABOR BUREAU CLOSE; CONGRESS STOPS FUND.

WASHINGTON, July 1.—Failure by Congress to appropriate funds for the United States employment bureau resulted today in all but twenty-six of the 450 offices of the organization being closed. Since March 22 the employment service has been supported by contributions from welfare bodies.

FROM ARMY HOSPITAL.

Special Train Bringing Soldier Patients to California.

(BY A. P. NIGHT WIRE.)

PORTLAND (Or.) July 1.—En route from Camp Lewis to San Francisco and Los Angeles, 150 patients from the Army hospital at the northern post passed through Portland tonight by special train.

LABOR BUREAU CLOSE; CONGRESS STOPS FUND.

(BY A. P. NIGHT WIRE.)

WASHINGTON, July 1.—Failure by Congress to appropriate funds for the United States employment bureau resulted today in all but twenty-six of the 450 offices of the organization being closed. Since March 22 the employment service has been supported by contributions from welfare bodies.

WEDNESDAY MORNING,

JAPS OUTWITTED IN PACT SIGNING

Chinese Delegates Ignore Instructions of Peking.

Disobedience Shows Sympathy with Revolutionists.

Gold's Secretary Says Mikado Should Return Shantung.

[EXCLUSIVE DISPATCH.]

WASHINGTON, July 1.—In the refusal of the Chinese delegation in Paris to sign the peace treaty, Japan was outwitted by the South China revolutionaries, according to information obtained from an authoritative source here today.

Peking, which is dominated by Japan, instructed the delegation to sign the treaty, including the Shantung article, without reservation, but the delegation, influenced by the South China element, which is combating Japanese influence in China, refused to obey orders.

Here is the version of the incident from a source sympathetic to Peking's attitude.

"The Chinese delegation at Paris say in their statement that the action of the Peace Conference on the Shantung question provoked a nation-wide protest in China, which makes it impossible for the Chinese government to accept the objectionable clause of the treaty."

INSTRUCTED TO SIGN.

The Chinese government in Peking, in view of the actual circumstances, and also trusting in the Japanese pledge to return to China the leased territory of Kiao-Chow, sent telegraphic instructions to the Chinese delegation at Paris during the latter part of May to sign the treaty without any reservation.

These instructions were repeated several days ago.

The action followed by the Chinese delegation is, therefore, their own arbitrary action, ignoring their official instructions from their home government.

The fact that the factional conflict between the north and the south in China has not yet reached a settlement and that the southern element is predominating over the Chinese delegation at Paris, will plainly illustrate the peculiar and

unprecedented action of the Chinese delegation in refusing to sign the treaty.

PEACE HEAD OVERRULED.

Chinese Foreign Minister Lou, the nominal head of the Chinese delegation at Paris, is reported to have been overruled in his determination to sign the treaty under the instruction of his government by Dr. C. T. Wang, who has acted as spokesman for the delegation, and who represents the Canton, or southern government, in China. Dr. Wang was in the United States as agent of the Canton government when the Chinese plenipotentiaries to the Peace Conference were appointed, and as it was desired that the south of China should be represented on the delegation to be sent to Paris, Dr. Wang was chosen.

The third Chinese plenipotentiary, Dr. V. K. Wellington Koo, Chinese Minister to the United States, is understood to have risked retention of his post in Washington by defying his government and refusing to carry out its instructions.

His father-in-law, Tang Shao-Yi, was president of the South China delegation in the Shanghai peace conference, whose services were recently terminated abruptly by the resignation of Tang Shao-Ly, which disrupted the conference.

NEW PEACE COUNCIL OF FIVE IS SELECTED.

MEMBERS WOULD BE LANSING, BALFOUR, TITTONI, PICHON AND MAKINO.

[BY CABLE AND ASSOCIATED PRESS.]

PARIS, July 1.—Premier Clemenceau, Secretary of State Lansing, Foreign Minister Balfour, Foreign Minister Pichon, Baron Makino and Viscount Chinda of Japan, and Foreign Minister Tittoni of Italy, decided this afternoon to constitute a new council of five. This council of five will have as its members Secretary Lansing, M. Pichon, Foreign Minister Balfour, Foreign Minister Tittoni and Baron Makino, head of the Japanese delegation.

The council will temporarily assume direction of Peace Conference affairs. A council of ten will not be constituted at present.

Foreign Minister Tittoni made it clear at the meeting that Italy desires that all territory taken from Austria be returned to Austria, the Austrian treaty. This immediately projects into the foreground the Piuma question, which it had been hoped could be avoided.

BELGIAN VIEWPOINT.

[BY CABLE AND ASSOCIATED PRESS.]

PARIS, Monday, June 30.—It has been decided to name an international commission of fourteen members to give further examination to the divergent viewpoints of Belgium and Holland on questions affecting those countries.

The German delegation has asked the conference when and where it will begin negotiations regarding the application of the conditions agreed upon for the administration of the left bank of the Rhine during the period of occupation.

In transmitting to the Polish government the treaty which has been signed by Poland with the Entente powers and the United States, Premier Clemenceau, head of the Peace Conference, has addressed a letter to Premier Paderewski setting forth the reasons why the provision of the document was considered necessary. Under the treaty, Poland agreed to protect minorities against discrimination, to assume payments to Russia, and to restore the devastated regions.

"If this crime which Japan, with the consent of the powers at the Paris Peace Conference, is committing against China, is not prevented, the foundation is laid for another war in the near future that on account of the complicated situation in the Far East will almost certainly involve the whole world," the statement asserts.

Optimism Seized and Chinese Arrested.

CHICAGO, June 30.—Agents of the Department of Justice and customs and revenue inspectors today seized opiates valued at \$40,000 and arrested a number of Chinese at Woodstock, Ill. The officers said they believed they had uncovered one of the most extensive drug rings in this part of the country.

Rear-Admiral William Swift Dead.

NEWPORT, July 1.—Rear-Admiral William Swift, retired, died at the naval hospital yesterday after a long illness.

GERMANS END POLISH WAR.

BY HENRY WALES.

[BY CABLE—EXCLUSIVE DISPATCH.]

PARIS, July 1.—Hugh C. Gibson, reporting to Herbert Hoover on the feeding of Europe, and in charge of feeding Poland, has received a telegram from Warsaw stating that war between Germany and the Poles ceased Saturday afternoon simultaneously with the time of the peace signing at Versailles. Gibson left Paris for Warsaw yesterday to superintend food distribution.

Cessation by the Germans of hostilities in Poland was necessitated when Mueller and Bell signed the Polish treaty, which was one of the instruments signed at Versailles. The belief is held at Paris that much of the German General Staff's preparations for an offensive warfare in Poland was mere bluff. The Germans have been maintaining entrenched positions lightly held with second-class troops along the Polish frontier since the signing of the armistice.

There has been intermittent artillery fire frequently, but the frontier always was open and circulation was free between Germany and Poland when no artillery fire was going on. The Poles maintained a few batteries and detachments of troops opposite the Germans, but they mostly were volunteers poorly equipped and without supplies, and the Poles never were called upon to withstand an infantry attack, as the Germans never attacked them.

Cessation of the Polish warfare is regarded here as the first tangible evidence the Germans have given that they will live up to the peace treaty. It created a favorable impression.

PARIS PAPER EXPECTS LEAGUE RATIFICATION.

WILSON SHOWS LOVE OF FRANCE IN BRITISH-AMERICAN PEACE GUARANTEE.

By Charles A. Seldon.

[BY CABLE—EXCLUSIVE DISPATCH.]

PARIS, June 30.—(Delayed.)—Despite the opposition to Wilson in America, the Paris daily, Le Matin, says, this morning, "Congress will surely ratify the treaty containing the League of Nations covenant as well as the special treaty of America and England guaranteeing immediate protection to France against a new German aggression."

"In this special guarantee," Le Matin says, "Wilson has given a new proof of his affection for France, the only sentiment which has caused yielding in some of his principles."

"Doubtless," the writer continues, "Wilson in his long sojourn in Paris, did not realize his boast. It was because he had counted on finding in all Europe without exception the same desire for peace which would have allowed him for charging and reparations to the authors of the war and which would have made a situation in which the League of Nations would also suffice to prevent strife and war."

GERMANY SQUOT REVENGE.

"But he found instead a large part of Europe thinking only of fighting and that Germany so far from renouncing the idea of revenge was preparing for it. Hence his realization that it was necessary for America to be willing to do something with England to help France."

"It would be unjust to hold Wilson responsible for the defect in the treaty which does not repair the ruin of French finances caused by the costs of the war. The Allies themselves are to blame for the immense renunciation. They could have provided against it in a way Wilson could not have prevented."

"There has been an immense army of 3,000,000, now rapidly leaving the shores of France. Despite the detestable impression some of our too greedy profiteering merchants have made on the American people, these young men will not forget the splendid part France played in the war."

SOLDIERS LOVE FRANCE.

"But they have found that our people are less glorious in the recovery than in the struggle. Our financial mismanagement, or inability to restore the devastated regions, has not given the Americans a high regard for our virtues in time of peace."

"Nevertheless," they say themselves, they will always preserve in their hearts and minds the vision of a heroic nation which the whole world salutes under no direction of the rich province of Shantung and "the delivery of it to Japan," was issued today by the Chicago branch of the Chinese Nationalist League, composed of Chinese business men and students, comprising fifty branches with general headquarters in San Francisco.

"If this crime which Japan, with the consent of the powers at the Paris Peace Conference, is committing against China, is not prevented, the foundation is laid for another war in the near future that on account of the complicated situation in the Far East will almost certainly involve the whole world," the statement asserts.

CLAIM SHANTUNG TO CAUSE ANOTHER WAR.

[BY A. P. NIGHT WIRE.]

CHICAGO, July 1.—An appeal to the liberty-loving people of America to prevent "the robbery of China" of the rich province of Shantung and "the delivery of it to Japan," was issued today by the Chicago branch of the Chinese Nationalist League, composed of Chinese business men and students, comprising fifty branches with general headquarters in San Francisco.

"If this crime which Japan, with the consent of the powers at the Paris Peace Conference, is committing against China, is not prevented, the foundation is laid for another war in the near future that on account of the complicated situation in the Far East will almost certainly involve the whole world," the statement asserts.

Optimism Seized and Chinese Arrested.

CHICAGO, June 30.—Agents of the Department of Justice and customs and revenue inspectors today seized opiates valued at \$40,000 and arrested a number of Chinese at Woodstock, Ill. The officers said they believed they had uncovered one of the most extensive drug rings in this part of the country.

Rear-Admiral William Swift Dead.

NEWPORT, July 1.—Rear-Admiral William Swift, retired, died at the naval hospital yesterday after a long illness.

CLAIM AGAINST CZECH.

[BY CABLE—EXCLUSIVE DISPATCH.]

VIENNA, June 30.—The first case known here for a claim being made against one of the new states by an American has just come to notice. The Vacuum Oil Company makes a claim for damages from the Czechs and has brought the matter to the attention of the American representative at Vienna.

PAPER HEAD FINED \$1500 FOR SEDITION.

[BY A. P. NIGHT WIRE.]

HELENA (Mont.), July 1.—A fine of \$1500 was imposed by Judge R. Lee Word upon R. B. Smith, president of the Butte Daily Bulletin Company, who was convicted of sedition by a jury in District Court last week. Smith has appealed to the Supreme Court.

The charge was based on publication of an editorial in which it was alleged the authority of the State Council of Defense was questioned.

BELA KUN ASKS FOR A MEETING.

Proposes Conference of Former States of Empire.

Wishes, However, for Indorsement of the Entente.

Wants His Red Army at Home to Garrison Towns.

[BY CABLE—EXCLUSIVE DISPATCH.]

VIENNA, June 29 (via Paris, July 1).—Bela Kun, head of the Bolshevik government at Budapest, recently proposed a conference of all the states of the former Austrian empire in order to settle the status of questions existing among them and to reach a harmonious understanding. His suggestion is in line with a solution which has been in the minds of other persons interested in bringing about the same result, but who have no sympathy with Bolshevism.

Bela Kun's statement says: "The soundness of the idea of discussing a settling of affairs in all of the states of the former Austro-Hungarian monarchy at a meeting in which the delegates of these states will take part, is obvious. It is a consistent practice of the much discussed principle of the sovereign right of nations to decide their own fate. The war has rent asunder the former monarchy, and consequently has put an end to the association of the various nations which has lasted for centuries."

"It is natural the dismemberment of the century-old bonds should cause a disturbance of the functioning of the newly-formed states. It seems just as natural that these disturbances might be done away with by a direct exchange of views, not only the best, but the only possible way of removing misunderstandings which have turned up among these states."

"Only direct negotiations of the interested states could bring about an understanding as it concerns the internal affairs of these states, questions which regard them alone."

"It is truly no mere accident that the Hungarian Communist republic suggested the idea of such a meeting for this government, which deems the interest of the working man to be paramount. It thinks it is its duty to solve all questions peacefully and it wishes to put an end to the terrible bloodshed. We feel sure the Entente is greatly interested in the re-establishment of the states of the former Austrian empire and will therefore not refuse to consent to such a conference."

NEEDS HIS ARMY AT HOME.

An American observer who just has arrived from Budapest says the Red army is growing better all the time. He says they march like soldiers and are well equipped and in good condition. He estimated the size to be 200,000 with 100 field pieces and 500 machine guns, and he believes Bela Kun's plan was to use the army within Hungary to uphold his government.

While he was fighting the surrounding enemies the country, which never really supported his regime, could ignore it. But with the army not fighting it can be used to garrison towns and villages to make the power of the government absolute. This apparently is one reason why it was ready to accept the allied ultimatum.

The food situation in Budapest still is bad. Recently 1600 cattle and 5000 horses were secured by commandeering. This gave the city a little meat but it did not last long among the large population.

LLOYD GEORGE IS MET WITH A TORY REVOLT.

THEY FEAR NATIONALIZATION WILL EXTEND FROM COAL TO RAILROADS.

[BY CABLE AND ASSOCIATED PRESS.]

LONDON, June 30.—One of the urgent matters with which Premier Lloyd George has to deal, now that he has returned to England, is the revolt of some 300 Tory members of the coalition against what they suspect to be the government's intention to nationalize the coal and other industries. They fear that nationalization of the coal industry will be followed by the adoption of similar measures with railroads and other concerns, and are especially agitating the transport bill, which gives Sir Eric Geddes, minister without portfolio, extensive powers over transport of all kinds, including the port of London.

These dissenting members of the House of Commons held a meeting today to lay their views before Andrew Bonar Law, government leader of the House, who, in reply, gave an opinion that the question of nationalization was not involved in the transport bill.

He added the Premier and himself had never discussed nationalization and that he himself would regard nationalization as a great evil. He concluded by saying that he felt a great objection to running the railways as a government department.

According to the Daily Mail, Premier Lloyd George has agreed to exclude docks and harbors from the scope of the transport bill and accepted an amendment creating an advisory committee. A pledge has been given by the government, according to the newspaper, that at present there is no intention of nationalizing the railways and, as a result of these concessions, it is said that opposition to the bill will be withdrawn.

Boston Has a 10-Cent Car Fare.

[BY A. P. NIGHT WIRE.]

BOSTON, July 1.—A 10-cent car fare was established by the Boston Elevated Railway today. The old rate was 5 cents and 2 cents when the road was placed under public control last year.

There's going to be more than one battle in Toledo on the Fourth. JIM CORBETT who is some pumpkins as a scrapper himself, is going—and he bought his trousseau at WOOLF & BEAN'S Hotel Alexandria Shop—and the class of that outfit! JIM is certainly due for a fracas when the fans spy him in those WOOLF & BEAN duds.

Everybody and his brother will want one of his shirts, hats or ties not only as a souvenir but to look bright and snappy, and when they see the label they'll do battle to get in to WOOLF & BEAN'S Hotel Alexandria Shop trying to show JIM up.

Don't crowd, boys. Billie + Jack

HAT LOGAN SAYS:

HISTORY REPEATS ITSELF.

—Didn't you read in the paper the other day—

—That our GEORGE WASHINGTON IS AGAIN RUNNING FOR THE PRESIDENCY OF THE UNITED STATES—

—Pretty far-fetched, I say, but all jokes aside—

—History doesn't have to repeat itself in the case of HAT LOGAN—

—We've been running for SEVENTEEN YEARS, too—

—Without any "OFF AGAIN OR ON AGAIN"—

—Keeping right up at the head of the class—

—Do you know Why?

—'Cause we deliver the goods—

—Giving you the best hats at the lowest possible price for—

—Value giving is a religion with us—

—Bring that "Human Hat rack of yours in"—

—And we'll make you believe that what we say IS TRUE—

—Values \$3.50 to \$15.00.

MIDDLE WEST NEWS IN BRIEF.

[EXCLUSIVE DISPATCH.]

ST. PAUL (Minn.) June 30.—Every business record in St. Paul was broken during the first six months ending today, records show. Four Goodrich-avenue homes were broken into and robbed early today by a burglar, who escaped after stealing \$500 in money and jewelry. All St. Paul asserted its support today of the charter amendment which will come before the electorate tomorrow.

St. Paul business men are preparing plans today for the second tour of the summer which will be through South Dakota the week of July 31 to 26. The fair weather prevailing will continue if the prediction today by J. N. Ryder, weather forecaster, is dependable.

KANSAS CITY.

KANSAS CITY, June 30.—F. G. Hule was named general manager of the Metropolitan Street Railway Company today to succeed J. K. Olson, who recently resigned. Mr. Hule has been with the company since 1917 as assistant to the president.

Miss Addie Hibbe and John F. Haslam of Edinburgh drove to the home of the Rev. Mr. Clarendon with the intention of having him marry them. When informed that he was working in the harvest field they drove there and the minister stopped short when long enough to perform the ceremony. With Mr. Clarendon stirred in overalls and the harvest workers, acting as witnesses the wedding scene was most unusual.

DES MOINES.

DES MOINES, June 30.—Every suffrage worker in Iowa will attend the special ratification session of the Iowa Legislature Wednesday. Those who have directed the fight will go with the officials into the office of the governor to watch him sign the ratification which is to be done as soon as the Senate and House have acted.

An effort will be made to have the Legislature appropriate \$15,000 for the State free employment bureau which will be forced to discontinue otherwise. Four men giving their address as Dunlap, were arrested at Storm Lake, while driving with 244 quarts of liquor from Minneapolis into Iowa. Three persons were killed at the

old Lincoln highway crossing near Ogden when lights from an approaching auto so blinded John McMahon that he did not see a North-western train. The auto was struck and McMahon, his wife and daughter, Imogene, three years old, were killed. Earl Reese, 20, was drowned when attacked with cramps while swimming at Davenport.

MILWAUKEE.

MILWAUKEE, June 30.—Victor Berger will not be allowed to take his seat in Congress, according to Congressman John Klecka. "The sentiment against Berger is strong," he said, "and Joseph P. Carney will probably get his seat."

John Harley died quietly in Milwaukee. It was a New Year's eve celebration on a small scale, and many downtown bars turned the lights off promptly at 12 midnight. Saloon-keepers will not try to fight the war-time prohibition act.

Indianaapolis, June 30.—Arrangements have been completed for extending a welcome to Edward de Valera, president of the Sinn Fein (Irish republic) when he arrives here tomorrow.

The second and third degrees of the Knights of Columbus were conferred on a large class of members tonight. This ended the first drive of the Knights of Columbus for new members.

Miss Anna Bourlain, married of 441 Goodard street, today shot Nicholas Zolde four times in the chest when the latter attempted to have her elope with him.

Harry MacDonald today shot Albert Ryerson when he found the latter tinkering with his automobile. Ryerson, known as the "talcum powder king," will die.

William Anderson, 12, while fishing at the foot of Fischer avenue, fell into the river and was drowned. Nelson Pepper, aged 5, was killed by a motor truck.

Edwin Miller, two years old, of 248 Glendale avenue, found a sample bottle of patent medicine on the street, drank it, and died five hours later.

OMAHA.

OMAHA, June 30.—William Giles, Creighton University student, was today sentenced to thirty days in jail for opening a stink bottle in a movie theater.

The police morals squad was reorganized today. Cunningham becoming head instead of Vanous. Ten special agents with sawed-off shotguns are guarding the Douglas street bridge against bootleggers to prevent excess supplies of liquor from coming in.

Leatham Davis, well-known attorney, was struck by an automobile today and severely injured.

MINNEAPOLIS.

MINNEAPOLIS, June 30.—A bold bandit, who probably has been reading the paper, today held up the St. Louis State Bank, one of Schaefer's string, recently declared insolvent. The bandit got nothing but a laugh out of the cashier.

The lives of seventy persons were saved last night by a young man known as Leslie, who rescued them from a gasoline launch which began to fill with water when the boat sprung a leak. He swam to shore in his clothes and brought aid.

Milton G. Richardson of Pasadena today is working in Child's restaurant here at 15 cents an hour in order to win a wage of \$3000. Richardson, son of G. D. Richardson, known as "Old" Richardson, is passing through the Twin Cities today with George Wesley, also of Pasadena, when the wage was made between the two. Richardson took up the bet and has to work six days yet to win.

Despite the fact that the status of the liquor question was much in doubt, Chief of Police Walker issued orders to all saloon-keepers that they could not remain open after 11 o'clock tonight.

RAIL MEN TO RESUME WESTERN UNION WIVES.

ST. LOUIS, July 1.—Members of the Order of Railroad Telegraphers throughout the country today were notified to resume handling business of the Western Union and Postal Telegraph companies. The order was issued by E. J. Manion, president of the Order of Railroad Telegraphers, canceling the ban on commercial business which went into effect June 12 in connection with the nation-wide strike of the Commercial Telegraphers' Union of America.

The action of the railroad telegraphers was taken, according to President Manion, because of the failure of commercial operators to make their strike effective, and also the obligation of the order to the public and the Railroad Administration.

Members of the order, who number 80,000, however, were instructed to refrain from handling any excess business diverted to railroad offices by the commercial companies.

FRUIT WORKERS' UNION HAS CALLED A STRIKE.

FRESNO, July 1.—Officials of the newly-formed Fruit Workers' Union in the San Joaquin Valley announced here early this afternoon that reports from all towns in this district indicated that more than 150 fruit workers employed in eleven plants walked out this morning.

The fruit workers demanded higher wages and the new scale was refused by E. Y. Foley, representing the fruit packers of the valley. According to union officials, strikes were called today at Lemoore, Armona, Little Luccerne, Hanford, Yuba City, Kingsburg, Turlock, Clovis, Manteca, Exeter and Del Rey.

The new union is said to have a membership of 5000 workers in the valley from Bakersfield to Stockton.

PACKING EMPLOYEES STRIKE FOR ONE DAY.

SPOKANE, July 1.—Employees of the Armour and Carstens packing plants here who walked out yesterday morning in support of their demands for wage increase of 50 cents a day, today returned to work. The strike was called by the union, agreed to accept a 10 cent bonus in lieu of the advance demanded.

RIO::BEAUTY::AMERICA'S::GUEST Mme. Pessoa, Wife of Brazil's President.

SOCIAL HONORS ARE PAID THE PESSOAS.

WIFE OF BRAZIL'S PRESIDENT IS AS SUCCESSFUL IN HER SPHERE AS HE IN HIS.

NEW YORK, July 1.—During her stay in the United States with her husband, the President of Brazil, and her young daughter, Mme. Epitacio Pessoa established herself firmly as a social favorite both in the national capital and here in New York. She was the recipient of numerous social honors in Washington, most of which were official and shared with her distinguished husband. In New York, however, the Pessogas have been entertained in their private capacities by the leaders of fashion and wealth and are quite as successful in that field as in the political and statesmanship.

During their stay in this country, President Pessoa has done much to further cordial relations between the United States and her big sister republic to the south. Closer trade relations are expected to come with the resumption of commerce on a peace basis.

REDS KILL AMERICAN OFFICER, THREE MEN.

BOLSHEVIKI SURPRISE PARTY OF FIVE YANKEES WHO ARE FISHING.

VLADIVOSTOK, Wednesday, June 25.—An American officer and three enlisted men were killed and wounded near the Suchan mines on June 22 when the Americans pursued Bolsheviki who had surprised and captured an officer and four enlisted men while they were fishing.

Entering Nivlitskaya, bordering on the mines, the Americans sent a detachment of ten to demand the release of the men. The Americans were fired upon and a fight followed. As a result the Bolsheviki were driven out, but they carried the prisoners on to Prolovka Village.

Reinforcements, instructed to take immediate energetic measures to regain the captured men and to eliminate the dangers to Americans from Bolsheviki gangs, were sent out. Two stations on the Suchan Railroad were blown up on June 23 and two Chinese killed. On June 22 a train guarded by Americans and Japanese was fired upon.

AGUILAR FAILS TO FIX AMERICAN OIL TROUBLE

NEW YORK, July 1.—Gen. Candido Aguilar, Minister of Foreign Affairs in the Mexican Cabinet, will sail Thursday from New York for France without having effected a settlement of the problems involving American oil properties in Mexico, it was learned here today.

Aguilar declared today that "this matter is now waiting for solution before the Mexican Congress."

"It is my personal opinion that the Congress will issue a just and equitable law in which any rights belonging to the companies will be carefully taken into consideration," he said.

MILWAUKEE TO BE DRY TILL DEMOBILIZATION.

MILWAUKEE, July 1.—Although saloon licenses in Milwaukee expired at midnight Monday, 2½ per cent beer and wine may be sold, according to the interpretation of the law by City Clerk Leuch, but no licenses will be issued until after demobilization.

PATTERSON TELLS OF "TRIBUNE'S" POLICIES.

TESTIFYING IN FORD SUIT, ADMITS HE WAS ONCE RADICAL AND SOCIALIST.

[BY A. P. NIGHT WIRE.]

MT. CLEMENS (Mich.) July 1.—After eight weeks of the Ford-Chicago Tribune libel suit the principal in the case to take the stand formally appeared today in the person of Capt. Joseph Medill Patterson, who, with his cousin, Col. R. R. McCormick, is a defendant.

In effect, Capt. Patterson stated that the Tribune and President Wilson had always differed on the Mexican problem and still differ. In 1911 at the climax of the Madero revolution, he testified, his paper believed the Mexicans could solve their own problems. By 1914, however, this opinion underwent a change by reason of the continued disorder and disorganization south of the Rio Grande and the editors became convinced that only armed intervention such as that employed in Cuba could bring order out of the chaos. The editors believed such action would be to the interests of the United States and Mexico alike.

"And you thought that it would please Germany to have the United States occupied with Mexico?" asked Attorney Lucking.

"Yes, I think so."

The witness would not confess pro-Germanism although often pressed by his inquirer.

"Well, you were not pro-ally?" insisted Mr. Lucking.

"Well, it might be said that we were not pro-ally," replied Capt. Patterson slowly.

Editorials in which submarine operations were characterized as points of international law over which the American people were not prepared to go to war were read.

"I had seen too much of war to care to see the United States rush into it," said the witness.

"We wanted to keep out of war, but also to start preparations for it," said Capt. Patterson. "We advocated compulsory military training for all."

COMPEL BUILDING ARMY. He said that not the least of the virtues which he saw in Mexican intervention was that it would compel building of an army.

One editorial was based on rumors that Ambassador von Bernstorff might be recalled from Washington by the German government. It was written before the wholesale exposure of German propaganda and espionage and expressed the opinion that Von Bernstorff had been a great power in preventing a rupture between the two countries. Mr. Lucking charged that it was pro-German, but the witness said "it was a mistake."

Preliminary questions by Attorney Weymouth Kirkwood adduced that the witness was 40 years old, that he was graduated from Yale, spent a season in Coahuila, Mex., "learning to be a cowboy," became a member of the Illinois Assembly and later was Commissioner of Public Works of Chicago under Mayor Dunne.

"Did you at this time entertain certain views as to the relations of capital and labor and similar subjects?" asked Attorney Kirkwood.

"Yes, I was a radical; in fact I joined the Socialist party."

"Why did you do that?"

"Well, they held views that seemed to answer some industrial problems."

Capt. Patterson did not see the editorial entitled "Ford Is Anarchist" of June 23, 1916, until after its publication in the Tribune, he said. He was cross-examined by Attorney Lucking.

In 1914, at the outbreak of the world war, Capt. Patterson went to Europe as a correspondent.

"To get news from the German standpoint?" asked Attorney Lucking.

"No, I went as an American, not to get the German view or the Allied view, but the truth."

"Were you arrested in Belgium?"

"Yes."

"They said I had been writing pro-German articles."

The correspondent was detained at a hotel for two days and then released, he said.

"What was the policy of the Tribune towards submarines after the sinking of the Lusitania?" asked Mr. Lucking.

"Go slow, I should say. We were opposed to the sinking of unarmed merchantmen, but when we armed them it became a different problem. It was difficult to say whether they thus became warships or not. While we were cautious about rushing into war, at the same time we urged preparedness."

On further questioning the witness insisted it was the fundamental policy of the Tribune to support the President when he made a decision.

Just Before Releasing. Take Houdini's Acid Phosphate. Refreshes tired and fatigued, restores the system and builds a stronger train. Non-alcoholic. Buy a bottle.

ington by the German government. It was written before the wholesale exposure of German propaganda and espionage and expressed the opinion that Von Bernstorff had been a great power in preventing a rupture between the two countries. Mr. Lucking charged that it was pro-German, but the witness said "it was a mistake."

Preliminary questions by Attorney Weymouth Kirkwood adduced that the witness was 40 years old, that he was graduated from Yale, spent a season in Coahuila, Mex., "learning to be a cowboy," became a member of the Illinois Assembly and later was Commissioner of Public Works of Chicago under Mayor Dunne.

"Did you at this time entertain certain views as to the relations of capital and labor and similar subjects?" asked Attorney Kirkwood.

"Yes, I was a radical; in fact I joined the Socialist party."

"Why did you do that?"

"Well, they held views that seemed to answer some industrial problems."

FAMOUS CLAM IS THREATENED.

San Luis Obispo County is Aroused Over Damage by Blige Oil.

[EXCLUSIVE DISPATCH.]

SANTA BARBARA, July 1.—The far-famed Pismo clam is disappearing from Pismo Beach, State fish and game officers reported today.

Extinction is threatened because of the pumping of blige oil into the ocean from tankers cleaning out before loading.

There is a law against polluting the waters around the State's big clam beds.

All San Luis Obispo county is aroused over the discovery of the havoc done.

ASK CHICAGO UNIONS STRIKE FOR MOONEY.

[BY A. P. DAY WIRE.]

CHICAGO, July 1.—The Chicago Mooney central strike committee today issued a proclamation calling upon 1400 labor unions, with a membership of 200,000, to peacefully cease work July 4, 5, 6, 7 and 8, as a protest against the refusal to grant Mooney and Billings new trials.

The committee in the proclamation states that more than 80 per cent of the membership of these unions voted in favor of the proposed strike at a recent mail referendum.

BUTTE LABOR UNIONS PLAN RADICAL MEET.

[BY A. P. NIGHT WIRE.]

BUTTE, July 1.—Although the contracts between mining companies of this district and the labor unions expired at 12 o'clock last night, no demands were made on the employing concerns today. A number of unions had given notice that the contracts would expire on July 1 and that they would not be renewed.

A convention has been called for this city next Sunday for the announced purpose of furthering the one big union movement in Montana.

UNITED STATES WARNS RUSSIA

(Continued from First Page.)

of the arrest of Mr. Martens, its representative in New York. The Commissariat wishes to point out that all the diplomatic and consular representatives of the American government in Russia have been treated by the soviet authorities with the utmost courtesy in spite of the fact that since June of last year the American government openly sided with all the Russian and foreign dark forces raised against the workers and peasants of Russia, with the sole object of crushing the great revolution and restoring tsardom and bureaucratic capitalist rule.

Even after American troops had landed on Russian territory and actually partook in military operations against the Russian laboring people, not a single American citizen has been molested in Russia. Moreover, American officials and journalists have been allowed admittance into Russia and have enjoyed every courtesy and all possible facilities and privileges. The arrest of Mr. Martens is the more surprising because he is a well-known and respected American citizen.

"The Russian government fears that this arrest may not be an isolated case, but form part of a general persecution of Russian citizens loyal to their people's government and demands the cessation of such persecution on the immediate release of Mr. Martens."

"The soviet government expects to be accordingly informed at an early date and not be compelled reluctantly to take reprisals against American citizens to be found on Russian territory."

MONTREAL, July 1.—Tons of Bolsheviki and Socialist literature were seized in a raid on the foreign quarters of the city conducted early today by 150 patrolmen under the direction of Chief of Police Belanger.

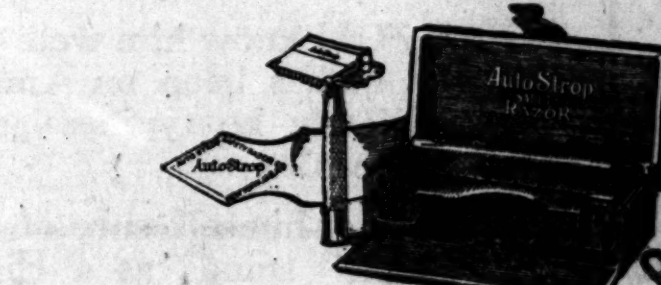

BOLSHEVIKI DEFEATED. LONDON, July 1.—Anti-Bolsheviki forces are advancing against Kunev, 250 miles south of Moscow, and Voronezh, hoping to find a way to Moscow, according to a Russian wireless message received by the official Bolshevik organ, Izvestia.

It is added that the Bolsheviki suffered a severe defeat at Kharkov, 120 miles south of Kursk, and have also lost Ekaterinoslav, 115 miles southwest of Kharkov.

THREE ARE HELD FOR TRANSPORTING LIQUOR. ONTARIO, July 1.—Henry Bruhl of San Bernardino, F. M. Bellard of Colton, and Ray Jasmille of Highland, arrested early today, by local and county officers, just as their motor cars loaded with liquor crossed the line into San Bernardino county, were tonight held under \$500 each for preliminary examination on charges of violating the county law, in regard to the transportation of liquor, following their arraignment late today before Judge George R. Hebrook.

Bruhl, who is a San Bernardino bus driver, is said to be an old offender, having paid several fines for alleged infractions of the liquor law, and having served some time in the County Jail. Bruhl was accompanied by Jasmille and a young woman whose name was not learned. His car is reported to have contained quantities of wine, beer and whisky. Bellard is also said to have been arrested on previous occasions. He was accompanied by Mrs. Bellard and a young woman.

Exclusive and Rapid. Gentle spring can leave without notice more quickly than almost anything except a cook.—[Kansas City Star.]

Provides keen blades and the means of stropping them quickly

AUTOSTROP Razor Blades are made of the hardest and toughest steel produced for razor blade use. They provide the sharpest, finest kind of cutting edge.

It is scientifically known, however, that all razor blades begin to dull after use—that to put a sharp edge back on the blade, stropping is absolutely essential. For this reason the AutoStrop Razor is built with a patented, self-contained blade stropping feature.

This simple, convenient stropping arrangement gives you the means of stropping a blade without even removing it from the razor. You simply slip the strop through

the razor head and pass the razor back and forth along the strop. The strop itself is made of selected hide, specially treated. It keeps the blade edge in prime condition.

A pressure of your thumb adjusts the blade for close, medium or light shaving. In fact, the whole AutoStrop Razor is so simple, so efficiently built that you will find it the most convenient razor you have ever used.

It is the only safety razor that sharpens itself, shaves and cleans without removing the blade.

AUTOSTROP SAFETY RAZOR COMPANY New York Toronto London Paris

COAST YARDS TO GET CONTRACTS.

Congress Enacts Bill Providing for Ship Programme.

General Manager Naphthaly in East to Get Awards.

No Danger of Further Suspensions of Building.

BY ROBERT H. ARMSTRONG.

(EXCLUSIVE DISPATCH.)

WASHINGTON, July 1.—As

doubt as to the future activities of

Los Angeles and other Coast ship-

yards for the months to come was

decided today when Congress

passed the civil sundry bill and pro-

vided enough money for the ship-

ping board. Reinstatement of the

Coast will be made and the Coast will

build a good share of the hundred-

million dollars' worth of 12,000 to

15,000-ton ships authorized in the

bill as passed. Contracts for these

ships will be awarded to the yards

which will be announced next week.

Los Angeles will get a good share,

and no possible cause for nonem-

ployment of the yards to build the

ships for many months to come

can be laid at the door of Congress

and the Shipping Board. General

Manager Naphthaly of the Los An-

ges Shipbuilding and Dry Dock Com-

pany is now in conference with the

engineers in Philadelphia and is

expected to return to Los Angeles in

ten days or two weeks with enough

contracts to keep the plant busy.

OFFICIALS COME TO COAST.

Harry M. Robinson, shipping

commissioner, is his way to the

Coast to inspect all the Coast ship-

yards and will be in Los Angeles

and San Francisco in a day or two.

He is making this tour of inspec-

tion in order that he may insure to

the Coast yards a full share of the

new programs as a reward for the

efficiency of the yards in the past

when they produced 75 per cent

of all the ships delivered up to the

time of the armistice.

Director of Operations Rosier is

now on the Coast and will make a

thorough round up of every ship-

yard on the Pacific before he re-

turns to Washington. Chairman

Hurley is in Chicago but will re-

turn to Washington after the fourth

and will expedite the machinery

of the Coast in order that no time

be lost on the new programs which

is now ready for expedition with

full supply of funds. Congress has

announced that the funds available

will be augmented if the sums

provided in the bill passed today are

not sufficient.

SHIPBUILDERS JUBILANT.

Harrison S. Robinson of Oakland,

Cal., representing all the shipbuild-

ers of the Coast, was jubilant to

learn that the prospects of indus-

trial activity for the Coast were

interview with The Times representa-

tive said:

"The passage of the Shipping

WYOMING SAID TO HAVE MORE JOBS THAN MEN.

STATE COMMISSIONER DE-CLARES CONDITION OF LA-BOR ENCOURAGING.

(BY A. P. CORRESPONDENCE.)

CHRYSTIE (Wyo.) June 27.—

"There is no general unemployment

in Wyoming," said Harry C. Hoff-

man, State Commissioner of Labor

and Statistics, in commenting to-

day upon a story printed here that

there was unemployment in some

sections of the country, "in fact,

there are many jobs unfilled. In

all parts of the State the various

industries are progressing splendid-

ly. Many communities are con-

templating extensive road-building

programs, and others are under-

taking building booms due to the

developments of the oil fields.

"Another encouraging sign is the

scarcity of labor, especially for

farmers. Practically all the return-

ing soldiers and sailors are find-

ing work readily in their chosen oc-

cupations, and the farmers and ranch-

men are constantly calling for more

men to care for the crops and live-

stock. High wages are being paid.

"Probably at no time within its

history has Wyoming had so many

employees. This statement is based

upon the unusual and widespread

improvement in the condition of

the oil industry, which has created

an opportunity for employment, with

increased wages for nearly all

branches of labor, prosperity of

the oil industry, and the general and

material progress which has been

made in Wyoming during the past

two years. The oil industry has

been the mainstay of the State

for many years past. In some

lines, notably the oil industry, the

development has been more sub-

stantial and marked than in others.

"The situation of labor is satis-

factory and encouraging, but there is

no exaggeration to say that employ-

ment at fair wages has been more

constant and abundant than for

years. Definite and conclusive ev-

idence that such is the case is fur-

nished by the number of calls

for labor in all branches of indus-

try.

"Wyoming coal mines are work-

ing fewer men than in former years,

due to overproduction and develop-

ment of the coal industry, but the

managing to give those employed

three and four days' work a week.

One of the most important fields

for this surplus labor is the State

highway program authorized

by the last Legislature and by the

commissioners of various coun-

ties. Over 100 miles of new road

are being built. It is felt that

there are two big reasons why labor

is so plentiful. First, the good roads

are being built, and second, the

prices on farm produce are going

to be lower to the consumers when

the full supply of food is available

of the year rather than the scarce

supply of today, and, second, they

PARIS WOMEN BAR STOCKINGS.

Entirely Too Expensive, Editor at Fashion Capital.

American Bars are Planned Near Chateau Thierry.

W. K. Vanderbilt Racing One-Eyed Horse in France.

(SPECIAL FOREIGN CORRESPONDENCE.)

PARIS, June 6.—Silk stockings

now cost \$10 in Paris and so the

male fashionists are to the delight

of the Parisian and American

permisionaires are wearing

any! The mannikins the fashion-

able dressmakers send to the races

with their newest creations set the

style, and it is spreading to the elite.

Perhaps soon only the poor will

wear stockings. Cotton, of course.

Chateau - Thierry, American

shrine.

It is only forty odd miles up a

dusty road from Paris and it will

be the first object of French evan-

gelists. Already France is ex-

pecting a floodtide of these tourists

who will be the first to see the

newly opened Channel of the

lifted and a syndicate of Americans

are planning a string of Amer-

ican hotels along the coast. At

Chateau-Thierry, like the rest of

the remainder of the front—German

troops have filled in the trenches

with a new material, concrete, and

are digging new trenches for the

tourists, clean, comfortable trenches

near town, and near a bar!

WAR CROSSES NUMEROUS.

"Ah, he does not have the Croix

de Guerre!" exclaimed the French

detective. "Alors, eh bien, m'ieu!"

It will be true to find him!

And any enough it would be: for

who ever saw a grizzled, weather-

beaten old polli, or even one of the

youngsters struggling manfully

to grow a beard, who didn't have

the War Cross or at least the

little red ribbon—"tomato" the

irreverent soldier calls it—signify-

ing his award.

While it was hard enough for

American soldiers to win the French

decoration in question, seeing that

American units up to the front

front only between October, 1917,

and November, 1918, the

police, who had just about four

or five years' experience in dealing

with many more chances for being

"soldats braves et courageux," as

the citations accompanying the

crosses always usually began, and

be it said to their credit, they passed

up mighty few chances to be

stupid, brave and courageous sol-

diers.

To have a Croix de Guerre with

one bronze star on it—proof for a

veteran of the war—was a "rien"

it is nothing. But to have one

with two, about twelve palms on

it is "another pair of sleeves."

For the great work done

at other times besides the rush

period on the farm to maintain a

TURK VISITS TO GREAT MOSQUE FALLING OFF.

(A. P. FOREIGN CORRESPONDENCE.)

CONSTANTINOPLE, May 5.—The

faithful Turk does not visit the

great mosque of St. Sophia as fre-

quently as he used to, for he con-

siders it a foregone conclusion that

St. Sophia will become a Christian

church, and it was in the fifth and

sixth centuries. One can always have

an argument in Constantinople over

the question whether the church

will revert to the Greek orthodox

or Roman Catholic communion.

Christian architects already have

visited the mosque and are making

their plans for the transformation

of the church when it is taken from

the Moslems. The faint mosaic of

Christ above the Mirab, which has been

almost invisible for centuries will be

renewed and the mosaics of the

apostles under the small dome in

the north end of the church also

will be restored. Turkish inscrip-

tions of all sorts will be torn down

and replaced by Christian symbols.

The devil's face in the marble

facings under the big dome and the

hands of "Mamet, the conqueror," al-

so will be retained as a reminder

of the 10th of May, 1453, when

Constantine fell to the Christians.

An aged Englishman who has

lived in Constantinople for thirty

years predicts trouble when the

Christians take over St. Sophia.

"I am going to stay at home that

day," he says. "Dozens of people

will be afflicted in the crash and

then, you know, the Turks have

been disarmed since the armistice.

There is a possibility that the

conversion of St. Sophia for Chris-

tian worship may meet with op-

position from Great Britain. At

present there are many Indian

troops in Constantinople, and if St.

Sophia is to be a mosque, the Mos-

lems, it is feared that dissatis-

faction among them might eventu-

ally have its echo in India and

other parts of Islam.

THE PURCHASERS APPEARED IN AUTO.

Delivered the currency and received

the platinum, but on returning to

the city they were challenged by

the Greek soldiers. The car was

searched as if for weapons, and the

platinum taken by accomplices of the

swindlers.

He Followed Instructions.

There was a good laugh in the

department of internal revenue in

the Federal Building a few days ago

when a wealthy man in a limousine

was there to swear to their incomes.

As a general thing they always

are accompanied by their interpre-

ters. But on this occasion the

of the Greeks thought he was fami-

liar with the language to take

care of the matter. When one of

them had given a statement of his

income, and thought the matter was

settled, the deputy, B. E. William-

son, internal revenue collector, said

SWINDLERS MAKE USE OF STRONG METHODS.

(A. P. FOREIGN CORRESPONDENCE.)

BERLIN, May 20.—Two clever

swindlers took advantage of the pro-

cedure prevalent nowadays—by

making a coup which resulted in

netting them a half-million marks

through advertisements. They inter-

Before Leaving

For the Fourth or for your vacation deposit your money in the Home Savings Bank or make arrangements to have it brought here without cost or trouble to you.

And put all your valuable papers, jewelry, keepsakes, silverware and other valuables in the safe deposit vault. It is a most convenient and pleasant place to handle your private affairs and to store anything from a bond to a trunk.

The Home pays 4% on savings or certificates of deposit and 3% on special checking accounts with a monthly balance of \$500 or more.

Our seven branches are also at your service and anxious to co-operate with you in business, saving and other matters of personal and community welfare effecting you or your community. Make friends with them and let them pull with you.

LEAGUE BOARD MADE FIFTEEN.

Campaign for Pact of Nations
to be Broadened.

County Committee will be
Named Immediately.

Educational Drive will Last
Sixty Days Here.

Broader plans for the League of Nations campaign which will be conducted in Los Angeles county during the next sixty days were made at a meeting in the Hotel Alexandria last night, and the Executive Committee, of which William M. Bowen is chairman, was increased from nine to fifteen members, with one vacancy left open.

The committee as it now stands is as follows: William M. Bowen, chairman; Prof. Roy MacCormick, Dr. John R. Haynes, Seth Brown, Mrs. Shelley Tolhurst, A. J. Wallace, Mrs. Herbert Cable, Marshall Stinson, Stanley B. Wilson, Mrs. Matthew S. Robertson, Louis M. Cole, Bishop Cantwell, Lorin A. Handley and Mrs. Force Parker.

Messrs. Bowen, Handley and Stinson have been delegated as a committee of three to name a secretary and select a headquarters. Stanley B. Wilson is chairman of the committee which will select those who are to represent the sixty or more cities and towns in the county on the general committee, and a get-together meeting of all the committees will be held in a local auditorium some Sunday afternoon in the near future.

Mr. Wilson has called a meeting which will be held at the California Club tomorrow afternoon at 4 o'clock for the purpose of reviewing

LOFTY HONOR'S GIVEN SAVANT.

Hale is Elected Associate of
the Academy of Sciences,
French Institute.

George Ellery Hale, director of the Mt. Wilson observatory and the National Academy of Sciences, has just received the lofty honor of election as associate of the Academie des Sciences, Institut de France, according to an announcement made yesterday. He takes the place of Adolph von Baeyer, declared vacant by the academy. Foreign associates are limited to twelve and the high distinction has been held by but two Americans in the past—Simon Newcomb and Alexander Agassiz.

For the last ten years, Dr. Hale has been a correspondent of the academy.

It was also announced yesterday that the National Research Council, upon recent acceptance of Dr. Hale's resignation as its chairman, created and bestowed upon him in perpetuity the title of honorary chairman. His successor as chairman is James R. Angell.

Dr. Hale's election was a nomination for membership on the general committee. Dr. John R. Haynes has been appointed director of finance for the campaign. J. M. Cumming, field secretary of the League to Enforce Peace, attended last night's meeting and assisted in shaping up plans for the big campaign of education in favor of the League of Nations.

SOCIETY.

BY VIRGINIA WOODS.

By Miss Maurer.
Miss Hazel Maurer was hostess yesterday at a tea in honor of her house guest, Miss Marjorie Dunlap, of Hanford, who is soon to become the bride of Mr. Spence Darlington Turner of the Royal Flying Corps. The affair also marked the twenty-fourth birthday anniversary of the hostess, this fact being made known when a big birthday cake, handsomely embossed, was brought in by little Miss Gladys Maurer.

The drawing-room was decorated with baskets filled with Easter lilies, pink and lavender hydrangeas and Los Angeles roses. The reception hall was in purple dahlias and the lawn parties, where punch was served, was trimmed in white daisies and sweet peas.

Those asked to meet Miss Dunlap were Miss Winifred Owens, Miss Edna Loftus, Miss Natalie Wright, Miss Estelle Accola, Miss Imogen Ann, Miss Louise Walker, Miss Zora Kenyon, Miss Marie Mannucci, Miss Loraine Noble, Miss Lillian McGowan, Mrs. Frank William, Mrs. Leslie Webb, Mrs. Warren Hardison, Mrs. Lawrence Jackson, Mrs. Lewis Myers, Mrs. Elmer Ames, Mrs. Harvey Both, Miss Maurer's guest, graduated from Stanford at the same time.

By Mrs. Deamer.
Mrs. E. Brooks Deamer of 127 South Herndon street gave a dancing party and buffet supper last night for her daughter, Pearl, at which a large number of the younger set participated.

Eastern Trip.
Mrs. M. M. Mosier of 55 Fremont place with her daughter, Mrs. Martin Henry, Jr., and Harold, left yesterday for Pittsburgh, Buffalo and Lake Placid, in the Adirondack, where they will spend the remainder of the summer. Martin Henry, Jr., will remain in the East and enter Cornell University in the fall.

By Mrs. Churchill.
Mrs. O. H. Churchill of 2201 South Figueroa street assembled a small group of friends at luncheon yesterday. She is planning a visit in San Francisco and will also spend part of the summer in La Jolla with her daughters, Mrs. Francis Pierpont Davis and Mrs. David McCarty. The McCartys and the two Davis kiddies will go to La Jolla next week, and Mrs. Davis will join them later after a visit at Monterey.

By Mrs. Brock.
Mrs. George Brock was hostess at a dinner party for eight on Monday evening. Plates were set for Mr. and Mrs. Louis Clark Carlisle, Mr. and Mrs. Charles Thompson, Mr. and Mrs. William J. Hole and Mr. Brock.

Long Motor Trip.
Mr. and Mrs. Willis J. Hole and their son-in-law and daughter, Mr. and Mrs. Samuel Knight Rinder, are planning to leave in August for a motor trip through Southern Canada, all the New England states and down to Richmond, Va., motoring from there back across the continent. They have just returned from a motor trip to the Yosemite Valley.

Bridesmaids Selected.
Miss Margaret May Johnston, whose wedding to Mr. Eugene Asten Hawkins, Jr., is to take place at St. John's Episcopal Church on Wednesday evening, July 16, has named her attendants. Her sister, Miss Florence Johnston, also a bridesmaid, is to be bridesmaid, and Miss Margaret Miller and Miss Byrd Wallis are to be bridesmaids. Dr. George Davidson will perform the ceremony.

Mrs. Woods R. Woolwine is giving a reception for Miss Margaret May and her sister, Miss Florence, who is to marry Lieut. Hancock Banning, Jr., on Thursday week, and Miss Byrd Wallis will give a dinner for Miss Margaret May and Mr. Hawkins, who is her cousin, the next evening.

By Miss Forre.
Miss Louise Forre of 427 South Woodlake avenue provided a pretty courtesy yesterday for Miss Margaret May Johnston when she assembled a dozen guests at a luncheon. The table was handily adorned in summer blossoms of all colors held in a straw basket. There were corsage bouquets for each guest.

Summer Vacation.
Mr. and Mrs. Secondo Guasti and Secondo Guasti, Jr., are planning to go to Lake Tahoe for the summer and will pass the time motoring and fishing in the mountain climbing. Before returning they will visit in San Francisco and may possibly tarry a while at Santa Barbara.

Weds Musician.
Miss Anna Harriett Clark of Clarinda, Iowa, daughter of Mr. and Mrs. A. Thomas Clark, who has been the house guest of her sister, Mrs. Mervin J. Monnette, at the Wilshire for the past seven months, was married to Mr. William Lindsey, Jr., son of Mr. and Mrs. William Lindsey of 416 Wilton place, Dr. Charles Edward Locke officiated. The bride has made many friends during her stay in California, who will be happy to hear that Los Angeles is to be her future home. She is a talented musician possessing a voice of rare quality. She is also a most promising composer. Mr. Lindsey, who is an only son, is managing a large ranch for his father near Monterey. In honor of the newlyweds, Mr. and Mrs. Monnette entertained at a dinner at the Hotel Virginia, Long Beach.

Personals.
Mrs. W. W. Sawyer of Rockford, Ill., has taken over the Howell Terrace and expects to make her home in Los Angeles.

Mr. Lucille Best of Hollywood is at Arrowhead for a little recreation. Mr. and Mrs. Everett H. Seaver and a small party of friends left yesterday for Catalina where they will spend the Fourth and remain over Sunday.

Mr. and Mrs. Nathaniel Myrick have gone over to the Hermosa Beach cottage for the summer. They expect to have a gay group of the younger set about them most of the time.

Miss Gladys Carson and her aunt, Mrs. John F. Francis, left yesterday for Santa Barbara, where they will remain a month.

Mrs. Robert P. Grubb of San Francisco, with her two young sons, is visiting her cousin, Mrs. M. T. Collins of 2930 Stephenson avenue. Many residents will remember Mrs. Grubb when she was Miss Theresa Sullivan of this city and former organist at the Plaza and Sacred Heart churches. She was organist on Palm Sunday at the largest concert ever given in St. Ignatius Church, San Francisco, which was attended by a vast throng. She is a member of the Ebell and the Berkeley Piano clubs.

BRINGS :: HOME :: BIG :: WAR :: TROPHY.

Deadly Hun Machine Gun is the Prize of Fighting Patrolman.

Patrolman Abercrombie Shows Remarkable Souvenir at Police Station.

He is giving an exhibition of the way the death-spitter is handled, while Capt. Ed B. Felts (center) looks on and A. G. Boycott rests his chin on the weapon, which is credited with having put 100 Americans out of business. The dent in the water jacket was made by Yankee shrapnel which put the gun out of business.

SOUVENIRS aplenty have been brought from Germany and France by returning doughboys, helmets with the Imperial insignia of the "All Highest," deadly Luger revolvers and other articles of German military equipment, but the first Los Angeles soldier to bring back a German machine gun of the latest model, which was put out of business by Yankee shrapnel after it had done deadly work at Dead Man's Hill, west of Verdun, is former Patrolman R. L. Abercrombie of 444 South Spring street, who yesterday returned to duty after fifteen months overseas service with the Twenty-third Engineers.

Abercrombie displayed his prize at Central Police Station and said he was often tempted to get rid of his cumbersome souvenir and but

for the fact that the gun is credited with having put out of commission 100 of his companions in the Meuse-Argonne offensive, he would have thrown it overboard. Equipped with a silencer and patent extension steam escapement jet, the gun was the most deadly weapon used by the Hun. It was chiefly used to repel attacks and as such it decimated the ranks of the rushing Tanks in a terrible way.

Around the jacket of the gun is a casing of steel which holds a quantity of water, intended to keep the gun from getting hot. When the weapon is in action it soon begins to steam and in order to hide its location from the keen eyes of Yankee outposts the Germans attached 100 feet of hose to the steam escape valve so that the vapor rose miles from the gun.

Many feet from where the gun was really hidden. With the silence of the muffled purr of a cat, spitting 500 slugs of death a minute, Abercrombie makes no pretense of having done anything out of the ordinary, but he does claim that a man who had charge of a bunch of Missouri mules, and whose duty it was to make them believe that exploding shells held no terror, deserved the entire list of military decorations in the Allied armies. Abercrombie was in charge of a number of these animals, and during the Meuse-Argonne offensive, which started September 11 and ended when the armistice was signed November 11, his life consisted mostly of mud from the River Meuse and escape valve so that the vapor rose miles from the gun.

SHIPYARDS CAN USE DISABLED SOLDIERS.

TENT MANUFACTURER DISCOVERS MANY WAYS TO USE FORMER FIGHTING MEN.

(BY A. P. CORRESPONDENT.)

SAN FRANCISCO, June 27.—That both the blind as well as the maimed of the great war are fully capable of doing certain necessary work in shipyards, rigging lofts and hangars is the opinion of F. J. Luebbert, head of a tent manufacturing concern, who made the discovery while endeavoring to find sufficient help in order to fill his war contracts with the United States government.

Short of help for preparing foot stops and guy ropes for his tents, which consists in knotting and splicing, it occurred to Mr. Luebbert that if the blind were capable of becoming adept at basket weaving, the same principles would apply to making complicated knots and splices. His offer of work to the students of several institutions for the blind was accepted and the result proved a complete success.

For the foot rope, or loop that holds to the tent peg, the Matthew Walker knot is used, among the most complicated known to mariners. By patient work, and with the aid of a heavy rope over which Mr. Luebbert could guide the hands of his pupils the workers were able, at the end of the week, to make the knot as well as their teacher.

"Not only could they do as well as myself, but they could do it a whole lot faster. I paid three-fourths of a cent each for every foot stop delivered and they averaged between 14 and 15 a day. Out of several millions of these foot stops delivered there was not a single rejection. I also taught them how guy ropes were spliced and whipped and they became equally expert in this."

"Under the circumstances, I am convinced that these people could be expertly used by the United States Shipping Board in making the rigging for the new merchant marine fleet, which we are constructing. There is much work in rigging lofts that they can do as expertly as a sound worker."

"With the tremendous growth in aviation, which I believe is bound to come, they also could be employed in the hangars where wire cables have to be wrapped by rope."

QUALIFIED.
"Are you an expert accountant?" "Yes, sir," said the applicant. "Your written references seem to be all right, but tell me more about yourself."

"Well, my wife kept a household budget for thirty days. One night after dinner I sat down and in less than half an hour found out how much we owed our grocer."

"Hang up your hat and coat. The job is yours."—[Exchange.]

INCREDULOUS.
Old Master—I understand that he painted cobwebs on the ceiling so perfectly that the housemaid wore herself out trying to sweep them down. New Master—There may have been such an artist, but there never was such a housemaid.—[Undisputed.]

HEMET CALLS WOMEN'S ARMY.

But Commerce Chamber Says Fruit-Picking Enlistments are Short.

Free registration, quarters are still maintained at the Chamber of Commerce for women workers who wish to help the fruit growers in the Hemet district harvest their big crop. The wage offered this season is approximately 25 per cent larger than was paid last year.

Although the Women's Land Army of last year has disbanded, it is believed that many of its members will be glad to return to the outdoor work for the summer, but to date there is a shortage of enlistments, according to the chamber report.

The story of a plain girl

Directed by D. W. Griffith
Story by Marian Fremont
Photographed by G. W. Bitzer

HERE is the latest of those wonderful dramas woven around the lives of plain people with which D. W. Griffith has thrilled all America.

It's a Griffith Production with a Griffith cast, full of that creative genius which absorbed you in "Birth of a Nation," "Hearts of the World," "The Great Love," and "The Girl Who Stayed at Home."

TrueHeart Susie (Lillian Gish) is the photoplay of a girl who gave everything she had but life to make the boy she loved into a man she could respect.

But gratitude is a mighty uncommon virtue and Robert Harron, as the boy, chooses the rouged trail of a jazz artist (Clarine Seymour) rather than Susie's heart of gold.

It takes a Griffith to make a plain girl triumph over a pretty girl. Come and see how he does it!

THE TIMES DOMESTIC PAGE

Being an intimate talk about things pertaining to the high cost of living together with some helpful hints, and straight from the shoulder news of things as they are and as they ought to be.

H. C. OF L. IN THE SADDLE.

No Relief is in Sight; Some Hints of Helpfulness.

It's really no use to deceive ourselves any longer. We may as well realize that a new price level has been established and is here to stay with us for some time to come. True, the trend is downward, but the brakes are on, and there will be no "dull sickening thud" as prices land "one-plunk" on the pre-war foundation. Taxation and labor will help hold up prices, and the margin of profit must always be had after production costs and taxes have been met.

From all parts of the country comes a demand for lower prices, but so long as the present conditions exist there will be no material change. Some things will be cheaper, but the average will remain high, and the sooner we make up our minds and adjust our pocketbooks

the better. Alien labor is leaving the country, immigration will be largely cut off, wages will remain high. Food will be high because wages are high; wages are high partly because food is high.

The average price level on commodities is only about 5 per cent below the high point of last year, while in the same period after the Civil War there had been a drop of 25 per cent, although it took thirty years to reach ante-bellum prices.

However, there is a silver lining for the high price level is an indication of prosperity. A sudden fall would mean widespread shutdowns and partial starvation in many lines. It is better to maintain high level subject to a gradual reduction for the law of supply and demand is still functioning.

HOW TO TAKE CARE OF THE REFRIGERATORS.

With ice up to 70 cents a hundred every one should take particular care to see that his refrigerator is 100 per cent efficient and that no ice is wasted nor food spoiled.

Those who own a white enameled refrigerator will find it very easy to keep clean, so easy, in fact, that the proper care is often overlooked. This is the time to clean the inside of the refrigerator. Once a week before the ice is put in, wash out the top of the refrigerator with cold water, washing both sides of the rack on which the ice rests. Push a rod or a heavy piece of wire with a bit of soft cloth on the end of it down through the drain, then pour a kettle full of boiling water down through it. Even if it's only "cold water" it will get quite a quantity of brown sediment with a very uninviting odor. It's very easy to wipe out the lower part with a damp cloth once a week and always if by any accident milk or other fluids are spilled, wipe up at once with cold water. Always keep the door closed. Whenever the lower door of a refrigerator is opened the cold air rushes out, the temperature of the refrigerator goes up and ice is wasted.

Remember, that the ice chamber is designed to hold the given amount of ice necessary to refrigerate the lower chamber. A small piece of ice wrapped in flannel or paper will not give you proper refrigeration. You may save ice, but you're liable to spoil food. Put in as large a piece of ice as your box will hold.

A sauce dish with crushed charcoal in the bottom of the refrigerator will absorb all the odors in a refrigerator, but if the food is put away correctly, there will be no odors. All leftovers should be put in jelly glasses. Pint jars come in very handy for soups and cooked vegetables. Bags made of cheesecloth hold lettuce and prepared vegetables. It is convenient to have half a dozen clean bags in a drawer for use with green vegetables, for while foods should never be put in the ice chamber itself, vegetables like lettuce, parsley and celery should be thoroughly washed, put into cheesecloth bags and then on the ice so that they will be perfectly crisp when served.

In removing food from the refrigerator at meal time close the door each time you go to the refrigerator. For instance, do not take the butter to the table, leaving the refrigerator door open while you cut it and arrange it for the table. Close the refrigerator door when you take it out and open the door to put it back.

Careful observance of these rules will give you sanitary and economical cold storage. And there will be no need for the mistaken idea that to be sanitary a refrigerator must be scrubbed with hot water and aired each week.

SUMMER ADVICE.

With the coming of extreme hot weather the problem in every home is how to keep as cool as possible for heat is always trying, energy and spirits lag, children grow cross and older people develop "nerves." With a little care and thought houses can be kept cool by throwing open every blind and window after sunset and leaving as many as possible open all through the cool night, then closing them as the sun grows bright in the morning. If this is systematically attended to, the burden of midsummer heat can be perceptibly lessened. But don't forget that for health's sake, every room should have a thorough airing every day.

WANTED, PRIZE WINNING SALAD.

What do you know about salads?

The salad is the pathfinder. It blazes the way for the balance of the meal. It is often the motif of the epicure's delight. It is a gustatory emblem of gastronomic joys.

The Times wants the very best salad recipes to be had. Recipes tried and true; new or old, and to be sure that it will secure the best thought of the readers of this department, a competent jury of award, an experienced, expert chef, will review every offering and render his decision in accordance with the facts and the evidence.

Every housewife has at least one confection that she is sure is better than her neighbors. That is the one we want.

The woman who contributes the best recipe, having in due regard the ordinary, average equipment of the everyday household will receive \$3, and the second best and the third best will receive \$1. There will be two honorable mentions and all prize-winning recipes will be published.

Write plainly on one side of the paper and be sure your name and address are legibly and correctly stated. Send your "best bet" to Editor, The Times Domestic Page, Times Building, Los Angeles, not later than Saturday, July 5.

Europe is calling for American make alarm clocks. This threatens a shortage at home. English buyers no longer order in numbers, but instruct manufacturers to send them so many "square feet of clocks."

Supplies of leather in the hands of glove manufacturers are said to be fast nearing the point of exhaustion. Even now, it is reported, certain grades of gloves are unobtainable by wholesalers and retailers. The shortage of material covers practically all lines, including lambkin, cape and Mocha, with the supply of the latter being exceptionally scant.

Retailers now in the market to purchase their supplies of fall gloves are paying from \$2 to \$3 a

dozen more than they did when they bought their stocks for the 1918 fall season. These increases, the manufacturers declare, mean that ladies' short-length gloves will be selling next fall from \$2.50 to \$4, while the range in men's styles will run from \$2.50 to \$5. Men's leather gloves retailing at \$2 a pair, in the opinion of manufacturers, are a thing of the past.

Stocks in the hands of wholesalers and manufacturers are moving quickly with the retailers urging early delivery. It is believed that all available supplies will be quickly absorbed and that late comers in the market may not be able to obtain gloves enough to supply their trade.

Further advance in prices to retailers is regarded as a possibility, since a strike among the glove workers was avoided recently by the manufacturers conceding a rise in wages averaging 15 per cent. Orders in hand were not affected by the increase.

Watermelons growing more plentiful and lower in cost every day, why not have a watermelon party for your friends some afternoon? If you have a large enough veranda, set your table there. For a centerpiece, hollow out half a watermelon, set it on a flat table mirror, fill it with vivid pink flowers with watermelon seeds for eyes. Serve this on a bed of water cream.

For the salad course serve the watermelon rind with the guests' names scratched on them with a nut pick or any sharp-pointed instrument. Let your first course be pure chilled watermelon juice served in small bouillon cups with tiny squares of melon in place of croutons. As a second course serve the meat of the melon cut in shape of small fish with watermelon seeds for eyes. Serve this on a bed of water cream.

est. Many of the answers are in consequential or absurd, but it shows a desire to co-operate and develop good will, and occasionally a very helpful hint is given. The "trade" is a farmer's best asset, and should be nurtured in every possible way.

The minimum cost of living for an "unattached" woman has increased 41 per cent, according to a recent investigator. This is since 1914. In that year a woman could live and have the necessities of life for \$9.63 a week. Now the minimum is \$13.87.

Here comes another deliver into high cost of living causes, and concludes that we have been paying several millions of dollars a year for paper and string which have been weighed with bundles. He would have the net weight marked on each package purchased.

Unless conditions in the woolen goods and silk markets change materially within the next three months the shortage of fabrics for the manufacture of women's outer garments will be serious.

String demand. Increased wages and the rapid upward trend of raw material is causing further advances in hose prices. A sharp advance of 5 per cent has recently been made while on spring and fall goods the advance may be from 10 to 25 per cent. Silk and hosiery and underwear are having a big call.

Europe is calling for American make alarm clocks. This threatens a shortage at home. English buyers no longer order in numbers, but instruct manufacturers to send them so many "square feet of clocks."

GLOVES SELL FAST AT ADVANCED PRICES.

Supplies of leather in the hands of glove manufacturers are said to be fast nearing the point of exhaustion. Even now, it is reported, certain grades of gloves are unobtainable by wholesalers and retailers. The shortage of material covers practically all lines, including lambkin, cape and Mocha, with the supply of the latter being exceptionally scant.

Retailers now in the market to purchase their supplies of fall gloves are paying from \$2 to \$3 a

dozen more than they did when they bought their stocks for the 1918 fall season. These increases, the manufacturers declare, mean that ladies' short-length gloves will be selling next fall from \$2.50 to \$4, while the range in men's styles will run from \$2.50 to \$5. GOOD THINGS TO EAT

Economy demands that no food
be wasted and yet in these warm
days appetites are so fickle that it's
difficult to prepare food satisfactorily
for serving a second time. And yet
it really isn't very much trouble to
do it. When cooked rice is
left over, make rice cakes with it.

To each cupful of rice add one well
beaten egg, then line molds and cups
with the mixture, pressing it firm-
ly down around the bottom and sides
until about an inch in thickness.
Put these aside in a cool place for a
few hours, then carefully remove,
invert and place in a pan, put in
the oven until a very delicate brown.
Salmon or other fish, any left-over
meat chopped fine and mixed with
white sauce or gravy may be served
in these rice cakes.

They're very appetizing, too when
served with a mixture of left-over
fruits. Perhaps there are some
pieces of pineapple, a few straw-
berries, apricots, peaches or other
fruits. These are all combined,
cooked with some sugar and put
into the cases. They are then served
with cream or a custard sauce.

When tomatoes are in season,
they're very palatable filled with a
mixture of left-overs. Large tomatoes
are washed, a slice cut from the
top of each, the seeds and brown
of the pulp removed and the inside
sprinkled with salt and pepper.
These are then filled with seasoned
chopped meat, mixed with bread
crumbs, seasoned with butter, placed
in a greased pan and baked in a
moderate oven. Rice, macaroni,
baked beans and sweet corn all
make good fillings for these stuffed
tomatoes.

Other stuffed vegetables are at-
tractive. If there are some peas
left over they may be creamed and
served in carrot shells. These im-
portant vegetables are also a de-
licious jelly salad combined with cold
chopped meat. Various combina-
tions may be evolved from the
recipe for green pea and veal salad.
Dissolve one tablespoonful of gelatin
in two tablespoonfuls of cold water,
and stir into it one cupful of stock
seasoned to taste and heated to the
boiling point. When it begins to
thicken stir in three tablespoonfuls
of mayonnaise dressing. Add three-
quarters of a cupful of chopped veal
and three-quarters of a cupful of
cold boiled peas. Pour into a mould
that has been wetted, chill and
when ready to serve turn out on
lettuce leaves.

Dandy Summer Meat.

Beef's tongue is an admirable
summer meat for it is as good cold
as hot, and can be re-served in
many appetizing ways. There is
practically no waste and it makes
an inviting dish when hot days make
roast and fried meats undesirable.

When the tongue reaches you
draw the point around to meet the
thick end and tie with a cord. Cover
with cold water, add a couple of
tablespoonfuls of salt, seasoning of
some sort, and simmer
tender. Keep adding water so that
the tongue is always completely
covered. Must be cooked for three
hours. The time depends upon the sort of seasoning
added in the cooking. Chopped
parsley and diced carrots, a chopped
pepper and a little celery—these im-
part a tempting flavor to the tongue.

When the tongue is tender, re-
move the skin, place the tongue on
a platter and serve with tomato
sauce.

Tongue, like ham, is excellent
served with spinach.
If you are going to serve the
tongue cold, let it cool in the water
in which it was cooked, then skin
carefully. It can be served with
potato salad. It is particularly ap-
petizing served with tartar sauce.
Left-over odds and ends of boiled
tongue can be made into a good
salad. Dice, add a few drops of
onion juice, mix with mayonnaise
dressing and serve on crisp leaves
of lettuce.

HALF CENTURY HERE.

Requiem Mass to be held today for
Old Resident.

Requiem mass will be held at 9
a.m., today at the Church of St.
Thomas, the Apostle, for Mrs. Agnes
Dawson Gelich, long-time resident
of Los Angeles, who died Monday
aged 76.

Mrs. Gelich came to Los Angeles,
with her husband, who was a sur-
geon in the United States Army dur-
ing the Civil War, more than a half
century ago and for many years the
family home was on the east side
of Broadway, between Third and
Fourth streets, where Mr. Gelich
purchased a lot of 156-cent frontage
for a small sum. The family also
at one time owned considerable
property on North Broadway. Mr.
Gelich died in 1918.

Mrs. Gelich leaves one sister, Mrs.
Rose Dawson, of this city, and a
number of nieces and nephews. Her
burial will be in Calvary Cemetery, the pier last night.

HELPFUL HINTS.

When you plan a long motor or
train trip be sure to take with you
a bottle of eau de cologne and some
cleansing cream for with these you
can rejuvenate yourself in ten min-
utes after a hot, dusty trip and be
fresh and cool by the following
simple method:

Remove your dress and brush it.
Then dip a towel in cold cream and
gently rub face, neck and arms.
Saturate a corner of the towel with
the toilet water and remove the
cold cream, rinse with cold water,
dry thoroughly and dust with pow-
der. If there is time the feet should
have rub with a mixture of eau
de cologne and water and powder
dusted over them. The application
of a spray of eau de cologne to
the hair will remove the dust and
make the hair fluffy. It takes very
little to accomplish this and the
traveler emerges with a more en-
livening complexion, refreshed in body
and spirit.

The pestiferous ants are beginning
to make their uninvited appearance.
Last summer one housekeeper dis-
covered that ants were coming from
refrigerator on her back porch and
still be free from ants by putting
a glass fruit jar lid containing coal
oil under each foot of the refrigera-
tor. These will need an occasional
refilling as the kerosene gradually
evaporates.

These days of hot sunshine are
excellent ones for renovating the
car. Wash the car with cold water
and good soap and let the pil-
low soak for several hours, then rub
the ticking between the hands until
the soiled spots are gone. Hine
in hot water and soap, then boil-
ing, sousing up and down until
the feathers are thoroughly cleaned.
Rinse under running water until all
soap remains and hang on the line
to dry. Pin with plenty of clothes-
pins for the pillows to be fluffy
again. Soap remains and hang on the
drying process. Occasionally
reverse the pillows and pin by the
opposite end.

When scrubbing unpainted boards
put a few drops of caustic soda on
the board, scrub and let the
dirt will come off like magic, leav-
ing your floor or table snow white.

Steel, when rusty, may be cleaned
by giving the article a good coating
of sweet oil, leaving it for a day
or so and then rubbing with un-
slackened lime.

THERE'S GOOD PROFIT
IN HOME CANNING.

It was announced last week that
Ralph Merritt, employed by Gov.
Stephens to determine a fair wage
scale for canneries, has announced
a scale of 45 cents an hour for an
eight-hour day with 55 cents an
hour for all work on Sundays and
holidays. Last year the rate was
35 cents for a nine-hour day. With
the new scale, the canneries will
pay more for their workers, but
peries and fruit packing houses, it
becomes certain that the cost of
canned goods isn't going to decrease
and no one is to blame for it.
housewife to put in a few hours of
profitable work at home.

Even if fruits are high, there's a
good profit in home canning. For
instance, red currant jelly.
Yesterday two pounds of red cur-
rants cost 40 cents. From them
can be made three pounds of jelly.
Los Angeles housewife prepared eight
glasses of delicious jelly. Last win-
ter she paid 15 cents apiece for
glasses containing about two-thirds
as much jelly, and not nearly so
delicious. This is the recipe she
used:

Rinse and wash the currants, put
on to boil in cold water, using
enough water to cover thoroughly.
Boil until the seeds begin to come
out of the currants, strain through
a jelly bag. Add pint for pint of
sugar, put back on stove and boil
twenty minutes to half an hour, or
until it drops off the cooking spoon
in drops, let it cool four or five min-
utes and pour in glasses.

EASY MONEY.

VENICE, July 1.—Taking ad-
vantage of the unusually large
crowds that have gathered at Ven-
ice during the Fourth of July cele-
bration season, the telephone strin-
gers are reaping large harvests of dimes,
which they say is to be used for the
purpose of winning their strike from
this city.

The thousands of people who
gather at the bay district city seem
ready and willing to help the girls
who say they rarely meet
with a refusal when they ask for a
dime and explain the purpose. More
than 100 girls were selling tags on
Burlal will be in Calvary Cemetery, the pier last night.

OLDEST CLERK
SEEKS NO PAY.

Works for Three Months in
County Office and Neg-
lects Salary.

It leaked out yesterday that
a clerk has been working in the
County Clerk's department for three months,
during which time he has not
drawn a cent of pay. This
clerk, who does not care for the
notoriety which publish-
ing his name would cause, was
appointed by former County
Clerk Leland. As he was not
on the eligible list, no pro-
vision was made for his salary.
He is competent and goes
about his work quietly. Coun-
ty Clerk Dowds will, no doubt,
appoint him regularly, so that
he will be paid for his work
in future. Whether he can
collect for the time he has
served is a question to be de-
termined.

SUMMER COTTAGES;
HOW TO LIVE IN 'EM.

With the closing of school, many
families are leaving the city for
summer cottages at the beach or in
the mountains. Many of these sum-
mer homes, however, are conveni-
ent but some are so primitive in their
arrangements that a few sugges-
tions may not be amiss.

For instance, the outdoor
closet closet which any handy man
(or woman) can build and which
keeps foods almost as well as if ice
were used. Upon a stout shelf out-
side a convenient window, prefer-
ably on the north side of the house,
build an open frame, fit it with
shelves. On top place a deep pan
filled with water, take a piece of
burlap the height of the pan and
cooler and long enough to wrap
entirely around it. Tuck the upper
edge in the water and you will have
a well ventilated refrigerator that
costs nothing but water to maintain.

Where ice cannot be procured a
simple method of cooling anything
that is canned or bottled is to fill
a box with nice clean sand and
bury the jars in it. The box should
be kept in a shady place and the
sand very damp. A few hours will
suffice to make the articles cool.

A very attractive little cottage
down at the beach has indirect
lighting fixtures that are the ad-
miration of all who see them, and
they're simply the Japanese paper
parasols with the handles removed.
Fastened to the cord so that they
spread out inverted just below the
bulb the light shines beautifully
through the translucent paper and
they are a pleasure to behold in any
desired coloring. These special
ones are the cream and black ones
popular at Catalina and have gay
orange tassels dangling from the
center.

Crape paper will be found a great
help in making decorations for a
short time. For the bedroom
it is particularly pretty used as
valances at the windows and spread
on dressers. It can be made with
dotted Swiss to give the desired color
scheme for dresser scarfs. Strips of
crepe paper cut lengthwise are
pretty for tying back muslin cur-
tains. Dark green crepe paper gar-
landed on strong thread and used full
width of the roll across the top of
windows makes excellent curtains to
soften the glare of light in rooms
without satisfactory shades.

CAKE FOR AN ARMY.

Great Sample of Local Baking to be
Cut July Fourth.

What is no doubt the largest cake
in the world will be displayed to-
morrow on the first floor of Ham-
burger's. It is known as the war
camp community service cake and
was donated by Lieut. Edward L.
Doheny, Jr., U.S.N. The cake was
baked partly by the H. Jevne Com-
pany and partly by the L. J. Chris-
topher Company and is six feet high
and eight feet across. It will be cut
into 26,000 pieces at Lincoln Park,
where the big Fourth of July celebra-
tion will be held.

The mammoth cake will be taken
from Hamburger's at 10 a.m., Fri-
day under escort of the community
chorus of the store and will be car-
ried down Broadway to the park.
A notable film company will take a
picture of the procession.

MORE SLASHING OF
CITY'S ESTIMATES.

TO KEEP WITHIN TAX INCOME
DEPARTMENTS MUST BE
ECONOMICAL.

The Budget Committee of the City
Council expects to have its tenta-
tive budget for the ensuing fiscal
year completed by the 15th inst.,
when the new city administration
assumes its duties. When the com-
mittee began its work of budget
making, it was confronted by the
necessity of cutting \$1,912,361 from
the estimated requirements of the
heads of municipal departments,
this amount being the excess of es-
timates over prospective income. With
only a week within which to com-
plete the work on the tentative
draft, the committee finds that it
still has more than \$900,000 to lop
off from the estimates.

At its last session the committee
considered the requirements of the
Park Commission, and it cut off
\$125,000 from the figures submitted
by this commission. With only the
Playground Commission and the Po-
lice Commission demands yet to be
reviewed, it is apparent that it will
be necessary to again go all along
the line with a sharp ax and cut off
every possible penny in order to bring
the grand total within the city's es-
timated income for the new fiscal
year.

THREE-DAY HOLIDAY.

The Frank J. Hart Southern Cali-
fornia Music Company will close
Thursday evening, July 3, at 6 o'clock
and not reopen for business until
Monday morning, July 7. The com-
pany's policy of closing at 1 o'clock
Saturday during July and August
will be continued this year as in
the past two seasons.

OPEN BIDS FOR POWER
PLANT EQUIPMENT.

CONTRACT WITH EDISON COM-
PANY EXPIRES, CITY WILL
MAKE NEW ONE AT ONCE.

Bids were opened by the Board of
Public Service Commissioners yester-
day for the transformers and other
equipment for Power Plant
No. 2, in the San Francisco
Canyon, preliminary work on which
structure is now in progress. There
were twelve bidders, and their offers
were referred to the Supply Com-
mittee for tabulation. The figures
show that the cost of the equip-
ment will be approximately \$600,-
000.

W. F. Durant and Harris J. Ryan,
members of the Board of Consult-
ing Engineers, who were selected
some time ago for the municipal
power projects, came to Los Angeles
yesterday, and today will confer
with Chief Electrical Engineer
Scattergood in considering the bids
for equipment.

The operating agreement between
the city and the Southern California
Edison Company expired on Mon-
day, and a new operating agree-
ment to be in effect until the pur-
chase of the Southern California
Edison Company's system is com-
pleted, is in preparation. Under
the new agreement, the city will
purchase from the Edison company
only such electric current as it may
need to meet deficiency in its own
output. Under the old agreement,
which has just expired, the city
was obliged to purchase from the
company 25,000 horsepower at the
rate of 1.25 cents per kilowatt hour.
The State Railroad Commission will
fix the purchase rate for the new
agreement.

Auditor L. M. Anderson of the
Public Service Department has filed
a report to the City Council, show-
ing that the city has collected the
total sum of \$1,308,000.31 under the
old operating agreement, from the
time it went into effect, April 1,
1917, to its expiration.

VISALIA HAS REAL
FOR-SURE BOOSTER.

FORMER WESTERN UNION MAN-
AGER BELIEVES IN THE
TOWN'S FUTURE.

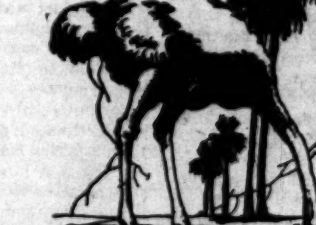

[LOCAL CORRESPONDENCE]
VISALIA, July 1.—If the world
doesn't hear of Visalia, its resources
and its prospects it will be no fault
of Hugh McPhee, recently installed
as manager of the property of the S.
Sweet Company, Inc., the city's large-
est mercantile and commercial in-
stitution.

Mr. McPhee, who was formerly
manager of the Western Union
telegraph interests in Los Angeles
and surrounding territory, has been
here long enough to decide that this
is the one spot in the entire State
destined to be the future center of
agricultural activity. He has just
brought his family here and has be-
come a permanent resident.

"Growing? Is Visalia growing?"
said McPhee last night. "You might
as well ask me if the world round—
of course, it is. Both our banks at
this minute are preparing plans for
new banking houses here. One that
I completed a \$75,000 hotel, and
residences are going up so fast it is
impossible to count them."

CELEBRATE SILVER JUBILEE.

Howard Whitted, recently ap-
pointed Southern California district
manager of the Tribe of Ben Hur,
arrived in Los Angeles yesterday
to be in time for the celebration of
the silver jubilee, this week by the local
branches of the organization. Mr.
Whitted, accompanied by his family,
came here from Cincinnati, having
received his appointment from
headquarters in Crawfordsville, Ind.
Temporarily, Mr. Whitted will have
his headquarters at 227 East Thir-
tieth street.

Wrapped

SCOUTS TO MAKE
GYPSY-WAGON HIKE.

EXPECT TO COVER NINETY
MILES THROUGH SAN BERNAR-
DINO MOUNTAIN RANGE.

Los Angeles boy scouts will start
on their ten day gypsy-wagon hike
through the San Bernardino moun-
tains from the Normal Hill Center
Playground, on Hope street between
Fifth and Sixth streets, at 7:30 a.m.
today.

Auto trucks will take the boys as
far as Arrowhead Hot Springs, where
they will be met by two chuck
wagons. Ninety miles through the
heart of the San Bernardino range
will be covered in short hikes of
from ten to twelve miles per day,
making stops at Thousand Pines,
Little Bear Lake, Fredalaba, Big Bear
Lake, Pine Knot, Seven Oaks and
Mill Creek. The trucks will meet
the boys again at the mouth of Mill
Creek for their return run to Los
Angeles.

JUDGE TARRIES.

Delays Vacation to Hear Suit to Test
After Hours.

Judge Hewitt delayed starting on
his vacation this week in order to
hear argument in the suit of Abner
Miller, attacking the validity of the
contract under which the city pro-
posed to purchase the distributing
system of the Edison company from
the \$15,000,000 bond issue. This
argument will be heard today. The
validity of the election proceedings
raised in the suit of William Mead
will probably be heard this after-
noon. A suit was filed by Mary Ride-
out in which she asks a recount of
the votes cast at the recent election.

SHE WORKED; HE WON.

Wife Says Dentist Afterward Throw
Her Down; Gets Divorce.

After Ruth L. Planck married
Malcolm G. Planck, she continued to
earn money as a stenographer, she
told Judge Crail in divorce pro-
ceedings yesterday, to enable him
to complete his course in dentistry.
Even after he graduated as a dentist,
she said she kept on as a sten-
ographer.

He may or may not have ap-
preciated her alleged unselfish efforts
in his behalf, but according to her
testimony, Dr. Planck quarreled fre-
quently with her. Once, she says,
he struck her and she was thrown
on the floor. She claims she was
severely bruised. The climax
came May 30 last when she left
home and started suit for divorce.
Yesterday she was granted a decree.

TO ARGUE DEMURRER
IN WILLIAMS'S CASE.

A demurrer to the Federal indict-
ment charging Charles L. Williams,
a former banker of San Diego, with
the misapplication and embezzle-
ment of funds, will be submitted to
United States District Judge Rhee-
soe today. At the same time a
motion to quash the indictment will
be argued. The date of the

houses.

SUICIDE AMONG
ANTIQUES NOW.

Hospital Records Show It's
Quite Out of Fashion.

Enormous Decreases Noted in
Past Twelve Months.

Emergency Doctoring Slumps
Under Ban on Liquor.

Suicide is no longer a fashionable
method of doing away with all your
troubles. Be warned and don't try
it. Committing suicide in the year
just past was pulling a lot of old
stump, and in the twelve months to
come, according to Receiving Hospi-
tal Superintendent Whitehead,
judging from figures compiled
from hospital records for the fiscal
year just closed, self-destruction will
be completely out of date.

Rept. Whitehead yesterday deliv-
ered to Chief of Police Butler the
annual Receiving Hospital report.
It included every case treated at
the Receiving Hospital, and all calls
answered by the police ambulance.
The report showed the cases of 22-
ed persons handled during the fiscal
year just ended, as against 25,517
the year before.

The following are figures taken
from the hospital report:

Alcoholism	11,700
Drug addiction	1,200
Insanity	2,500
Neurosis	2,500
Psychosis	2,500
Sexual diseases	2,500
Other diseases	2,500
Total	25,517

According to a statement given
out by Chief Police Superintendent
Butler, Receiving Hospital work in
general fell off markedly when sale
of strong liquors in this city was
prohibited.

HIGH CARNIVAL AT
HAZARD PLAYGROUND.

EVENING AFFAIR PROMISES
TO BE BIG FIESTA OF MIRTH
AND PATRIOTISM.

High carnival will be held at the
Hazard Playground the evening
of July 4. The directors yesterday
announced an elaborate programme,
originally intended to fill the day,
but later arranged for the evening,
because of the big daytime celebra-
tion at Lincoln Park. The pro-
gramme at Hazard Park play-
ground will be for the public, with-
out charge.

The celebration will begin at 7
p.m., with a comic address of wel-
come by Mrs. Della M. Carvin, and
will continue until midnight. The
main event will be a masked dance
and costume parade, with prizes for
the two best costumes. Old-time
waltzes will be interspersed
with a pie-eating contest, three
singing bouts, and three fancy
dances—Oriental, toe and Spanish—
by A. V. Frank, Mrs. Frank and Miss
Gibson. There will also be
athletic events, including a 400-
meter race. For the social dancers,
there will be a prize waiter and
the Plumber Orchestra playing.

The playground is reached best
by the Rose Hill-Lincoln Park
line, cars running from the Pacific
Electric station on Main street, or
by automobile on Griffin avenue
south from the County Hospital to
Charlotte street.

NAMED COURT BAILEY.

Alex B. Moreno, who, since 1912
has been connected with the State
Supreme Court and Division No. 1,
District Court of Appeal, was yester-
day appointed bailiff of Division
No. 2, Court of Appeal, by Judge
Phelan, Thomas and Sloane. He
entered upon the discharge of his
duties at once. The appointment
came through the civil service. Mr.
Moreno is one of the best-known
figures about court headquarters in
the Union League Building.

BOYS WRECK AUTO
AND HURT DRIVER.

YOUTHS, IT IS SAID, THREW A
TREE DOWN ON ROAD.
OTHER CHARGES.

Charged with wrecking an auto-
mobile and seriously injuring E. E.
Howe of 1406 West Seventeenth
street, the driver, Eugene McNight,
17 years of age, of 145 West Avenue
12 and Frank Valente, 14 years old,
of 2338 Verdugo road, were locked
in Juvenile Hall late yesterday.

The two boys, according to
Patrolmen Smith and Frater of the
East Side Police Station, chopped
a tree standing near the Ver-
dugo road, almost down, until un-
til Mr. Howe approached in his
automobile and then pushed the tree
down into the road. The falling
trunk struck the top of Howe's ma-
chine and crushed it. He was struck
by flying glass and painfully cut
and bruised.

According to police officers who
are investigating the case the two
youthful prisoners have been im-
plicated in a number of cases and
have been near the outskirts of the
city. They are also charged with
placing tree trunks and wire across
public roads.

BOY NEARLY KILLED
WHILE COASTING.

Roger Wilson, 11 years of age, of
2929 South Main street was pain-
fully injured yesterday when he lost
control of his bicycle while coasting
down Baldwin Hill, near the out-
skirts of the city. The boy was
thrown over the handle bars and
struck head first on the curb. At
the Receiving Hospital, where the
youth was rushed, he was treated for
a fracture of the skull, a possible
fracture of the jaw, and many
lacerations about the head and face.

MAN LOST IN CANYON
IS FOUND BY POSSE.

Word was received at the Sheriff's
office yesterday that J. P. McCarthy,
79, who was lost in Santa Monica
Canyon, was found by a posse sent
out in search of him.

HOME IS FIELD
OF MERRY WAR.

Husband and Wife Exchange
Charges of Violence.

"He Struck Me on Nose," She
Tells Divorce Judge.

She Wielded Hose and Broke
Chair, Mate Counters.

Charles L. Myers said the trouble
with his wife, Lillian Myers, began
three days after they were married,
when she demanded a property set-
tlement. Mrs. Myers says her hus-
band struck her a month after they
were married. In Judge Craff's
court yesterday, both husband and
wife contradicted each other. She
is suing for separate maintenance; he
is asking for a divorce on a cross-
complaint.

Mrs. Myers said she left her hus-
band because he was cruel to her.
"He hit me on the nose and made
it bleed," she said.
"She hit me on the head with a
piece of hose," I tried to get the
hose away from her. In the fracas I
accidentally hit her on the nose,"
said Mr. Myers.

"I took for a chair at me and
said he would knock my head off,"
declared Mrs. Myers.
"She picked up a chair and broke
it over a table. Then she turned to
two young men standing by, and
said to them: 'You didn't see me
break that chair, did you? He threw
it at me, didn't he?'"

As a demurrer to the complaint
is pending the court ordered the
temporary alimony of \$50 a month
suspended, until the demurrer is
disposed of.

SEASON AT BEACHES
A RECORD BREAKER.

RAILWAY HEAD REPORTS BIG
EXODUS TO THE SEASIDE
AND NO RENT SIGNS.

The greatest year in the history of
the Southern California beaches is
seen this year by W. A. McCam-
mond, general agent of the resort
department of the Pacific Electric
Railway. This statement was made
following a general survey of the
big influx of people that has already
started toward the beach resorts.

"I look for the greatest season
the beaches have ever
known," said Mr. McCammond yester-
day. "And knowing that big busi-
ness is headed their way the beaches
are exerting all their efforts to ac-
commodate and encourage it. Even
now, at this early stage of the sea-
son, it is almost impossible to get a
house or any sort of an apartment
at any of the beaches. Redondo
Beach took in the last of its 'for
rent' signs last Saturday when that
resort was formally opened for this
year. And I understand that at the
other beaches folks are having a
hard time trying to find any kind of
living quarters."

The final ending of the war has
lifted many burdens from the shoul-
ders of the public and they are look-
ing once again for time for recrea-
tion. Though the beaches antici-
pate a floodtide of pleasure seekers,
they are planning great receptions
for them in the form of concerts,
carnivals and numerous other at-
tractions throughout the season.

SAY DRIVER RAISED
A CUSTOMER'S CHECK.

What is declared to be a crude
piece of forgery is charged against
C. M. Brink, a driver for the Nation-
al Creamery Company, in a com-
plaint issued by Deputy District At-
torney Randall.

Brink is in the City Jail and will
be arraigned today in justice court.
It is alleged that he collected a
check for \$7.88 from Jacob Rifkind
of 145 Santa Barbara street, later
changing it to \$28.27 and collecting
the change from the company by
which he was employed.

NO WAREHOUSE
FOR WILSHIRE?

Owners of Fine Homes Protest
Commercial Invasion.

Council Committee will Give
Hearing Tomorrow.

Silk-Waist Makers Still Have
Hopes in Westlake.

Council Clerk David M. Carroll
this morning will read to the City
Council a strong protest, filed Fri-
day evening, against permitting the
erection of a warehouse in the
vicinity of Wilshire boulevard and
Western avenue. The matter will
be referred by the Council to its
Public Welfare Committee, and this
committee will meet on Thursday
forenoon, immediately after the
Council session. It is probable that
the protest will have consideration
at that time, as property owners are
on the subject. They do not wish
to await the formation of a new
City Council and the appointment
of its committees.

While there is no application on
record for a permit for the construc-
tion of a warehouse at Wilshire and
Western, there is an application now
on file in the office of the Wilshire
tendent of buildings for a building
permit at 269 South Western ave-
nue. The application was made by
Frank L. Meline for the Wilshire
Fireproof Storage Company, now
located at 1716 North Cahuena
avenue. The application proposes
the erection of a reinforced con-
crete structure, seven stories in
height, and 60x115 feet, to cost ap-
proximately \$15,000.

The protest which will be pre-
sented to the City Council today
reads:

"The undersigned owners of prop-
erty and residents in the vicinity of
Wilshire boulevard and Western
avenue in the city of Los Angeles,
Cal., respectfully represent that it
has been proposed to erect a ware-
house at the corner of Wilshire
boulevard and Western avenue.

"This part of the city is and has
been one of the finest residential
districts of the city and is built up
with beautiful homes.

"We located our homes in good
faith in the belief that this district
would be preserved as a fine resi-
dential district and as an ornament
to the city of Los Angeles.

"It would be almost a crime to
permit this district to be invaded by
a warehouse, and should it be per-
mitted would prove a distinct finan-
cial loss to us, a moral loss to the
city of Los Angeles as a whole, and
act as a deterrent to people of
means who come here to build fine
homes, when they feel they will not
be protected against destruction or
invasion.

"We, therefore, respectfully pro-
test against granting any right to
any one to construct such a ware-
house, and we respectfully ask that
this Council prevent the same, either
under existing laws or by the
prompt and speedy passage of such
laws as will prevent the erection of
such a structure."

This protest is signed by W. D.
Longyear, the Windsor Square In-
vestment Company, Frank E. Walsh,
Claude S. Holman, Harrison B.
Ward, William M. Rosenthal,
Marco H. Hellman, Mrs. S. Aron-
son, Wilson E. Baker, Schuyler C.
Lantz, John E. Owen, J. P. Gordon,
James C. McGill, P. E. Erickhart,
Mrs. A. B. Schmitz, Mrs. E. K. Sil-
ber, Mrs. John Smith, Mrs. M. L.
Tolst, Albert M. Stephens, Ida M.
Campbell, Mrs. F. H. Edwards, E. F.
Peer, Louella B. Edwards, Pearl J.
Heflinger, Elizabeth C. McCoo, G.
Mason, John R. Grant, Harriet A. Newman, E. R.
Hibbard, Mrs. Philip P. Holman,
Philip P. Holman, Harry C. Getty,
David McNair, Janice Wallis.

It developed yesterday that with-
in the past few days inquiries have
been made at the office of Superin-
tendent of Buildings Backus regard-
ing the possibility of securing a per-
mit for the erection of a silk waist
factory, to cost approximately \$250,
000, within the territory between
West Sixth street, Union avenue and
Valencia street and reaching back
to Santa Fe place.

Wrist Watches

"TIME and tide wait for no man" nor are waiting
tendencies indicated by trains, boats, auto stages.
This being an established fact, why not be prepared,
then, with a wrist watch? This highly serviceable article
will enable you to be "on time" many a time and oft and
thus keep you in a state of tranquillity.

Do not be without one on your summer journey to the
great outdoors. Select your watch at Brock and Company
where it is guaranteed to keep accurate time. Here you will
find only high-grade watches with movements of the best
standard makes and in many styles.

We particularly wish to call your attention to our
ladies' bracelet watches in platinum and green gold
—beautifully designed and of enduring quality.

REAL TIME KEEPERS.

BY CHAPIN HALL.

Government bonds are doing two of the things predicted for them in this department weeks ago. First, they are acquiring a daily developing strength which will soon send them to par or better; and second, they are being treated practically the same as currency. The bonds are being very heavily traded in at the present time in Los Angeles on a speculative basis, but they are being very actively traded in as a medium of exchange. From peanuts to real estate they are turned in at the same rate as cash, and are as freely accepted. Most of the offerings which are made on the stock exchange come through dealers who have taken them for automobiles, automobile accessories, pianos, groceries, bills, even rent. The good thing about this condition is the restoration of confidence in Uncle Sam's obligations. There is less exploiting and the public is gradually coming to understand that their government securities are literally "as good as cash" because they were woefully ignorant of the ways of the coupon and the machinations of the unscrupulous dealer, the lesson was a long and a hard one, but we are learning it now, and in the end will have a better understanding of the country's financing, and incidentally of our own, than we have ever had before.

End of Fiscal Year. With the first of July the fiscal year for many financial institutions and corporations came to an end, and throughout the land yesterday was one of the busiest of the year. In Los Angeles several million dollars was disbursed in interest and dividends, and every bank was thronged all day with eager depositors realizing upon their thriftiness. There is a large percentage of customers who have been depositing their money, and then promptly redeposit it. In this physical operation, which would be handled automatically by the clerical department in any event, they seem to derive large satisfaction, and the mere handling of the increment is a pleasure obvious to anyone who spent a few moments yesterday in the counting-room of any bank. The corporations and other interest-bearing paying institutions mailed out their pleasant little reminders of a successful half year, and everywhere forces were on the jump in an effort to "meet up with" the business of the day.

Shortighted Policy. It looks like a shortsighted policy on the part of the government to close the live stock department of the Bureau of Markets. This service was of great value to the growers in Southern California, and the capable administration of Mr. Allen was relied upon for accurate information as to market conditions.

THE HIDE MARKET: MILWAUKEE PRICES.

(EXCLUSIVE DISPATCH.) MILWAUKEE, July 1.—Hides, green No. 1, per lb. 1.00; No. 2, 90c; No. 3, 80c; No. 4, 70c; No. 5, 60c; No. 6, 50c; No. 7, 40c; No. 8, 30c; No. 9, 20c; No. 10, 10c.

TEXAS OILS PROFITS PROFITS

We specialize in the Division of Profits. The Division of Profits is a new and revolutionary method of dividing the profits of a business among its owners.

OUR ADVICE TODAY:

Buy Hanger-Brooks at \$1.00 per share for quick production, quick advance, quick dividend. Small capitalization, strong management, located 600 yards north of the heart of the Texas oil belt. That's good enough, isn't it? We have underwritten part of this issue, and we are confident that it will be a success.

ACTIVE ACCOUNTS SOLICITED

We're here. Our Oil Market Letter Digest, giving important facts about the oil market, is sent to our subscribers free of charge. Write or call the Wire.

LOCAL STOCK EXCHANGE.

(Following are the closing prices and sales, as noted yesterday at the Los Angeles stock exchange, ground floor, 110 I. W. Hollman Building.)

PRODUCE PRICE UP ON ACTIVE MARKET.

PEACHES ADVANCE; VEGETABLES CLOSE STEADY; WATERMELONS DECLINE.

The local produce market opened strong yesterday and nearly all commodities offered were bought up readily, with the exception of watermelons, which were very heavy, owing to the late arrivals of the past four days. Many wholesalers expected the street would be cleared early of this stock and suffered considerable losses, owing to the fact that the stock was not sold to retailers at a low level.

Watermelons were very active and the majority of the offerings moved at a wide range of prices. The position of the watermelon market was very active and the majority of the offerings moved at a wide range of prices. The position of the watermelon market was very active and the majority of the offerings moved at a wide range of prices.

WALS MEET IN PASADENA.

City School Middle Center of Interest.

Elected Pedagogy Con- fers with Dr. Rhodes.

Ask to Have Experts Dropped from Pay Roll.

LOS ANGELES, July 1.—(LOCAL CORRESPONDENCE.) PASADENA, July 1.—Pasadena's school superintendents, over there has been so much con- sideration recently, met here today, at the John Franklin West, and discussed work of the schools with Dr. J. M. Rhodes, superintendent of the Board of Education of a few days ago. The meeting was amicable, though it is predicted that the new school board organ- ized Monday the recent election West will be ignored and Dr. Rhodes will be re-elected superin- tendent.

present board elected Dr. Rhodes for a four-year term beginning today, so this was not a day in the new position. From expressing a desire to resign himself with the school of the local schools, Mr. West said that he had nothing to say. He spent the rest of the day in conference with Mrs. Clara Hall, George W. Woolley and Ruth Weatherbee, the three members who elected him. Mrs. Bickley, president of the board, and Mrs. Beatrice Dana, members who are supporters of Mr. Bickley, were not present. Mr. Bickley is still in and in case is quarantined, but both expected to be present when the board organizes next Monday. The change coming in the board was that Clayton R. Taylor, who was elected to the position of the Commissioner of the Board of Education, was lost and the committee to take the petition un- der consideration as a committee of whole, the vote being unani- mous except for that of Commis- sioner Reeves. The petition stated the reason for requesting the resignation of the two officials that services were "unnecessary and excessive." The two officials, Mr. Taylor and Mr. Reeves, were the head of the city's unified system and opposition to the plan back to before the last year.

SOUTHLAND POPULAR. The East is much interested in the mission of the Atlantic Coast field by D. M. Linnard, director of the Linnard chain of churches in California, according to Mr. A. Paddock, secretary to Mr. Linnard, who returned today from New York and Atlantic City. He attended the auspicious of the Hotel Ambassador at Atlantic City, June 22. Mr. Paddock said that a host of national and public life, finance, and the hotel world were present at the Ambassador opening and the eastern papers evinced a keen interest in the Linnard chain of churches in the Atlantic City and in the hotel world. Mr. Linnard for erecting a \$1,000,000 hotel in New York, said Mr. Paddock, the ad- ministrator of the Linnard chain of churches has directed much atten- tion to Southern California. The Atlantic City hotel, he said, had a regular Southern California influx of tourists to South- western during the winter. Linnard has returned West, and is in San Francisco a few days before visiting his Pasadena and the Alexandria in Los Angeles and visiting the progress being made for the new Cal- ifornia hotel which is going up in the district of Los Angeles.

WILLARD-DEMPSEY FIGHT RETURNS. Willard-Dempsey fight returns displayed at "Coronado Beach." [Advertisement.]

EL CENTRO, July 1.—Irving Baldwin, 12 years old, when told by Judge Franklin J. Cole in the Superior Court Saturday that he was a confirmed truant and disobedient replied that he did "naughty things" because he wanted to get to the coast to see his brother. The juvenile was ordered taken to the State school at Whittier, where he will be detained until he is 21 years of age, or is given his parole by the institutional authorities. His older brother, Louis Baldwin, was sent to the same school about a year ago.

POMONA MUSTACHE MARATHON.

[LOCAL CORRESPONDENCE.]

POMONA, July 1.—Bingo! They're off! With seven entrants already, what promises to be a new national pastime in endurance runs has been inaugurated in Pomona. It is nothing more or less than a whisker-and-mustache Marathon to see who's hairy adornment possesses the greatest age.

Of the seven entrants, six are from Pomona and one from Anderson, Ind. The total combined age of all the whiskers in the race has reached 378 years.

Thus far in the contest the honors go to S. N. Pelton, venerable pioneer resident of Pomona. Mr. Pelton proudly displays a hirsute appendage behind which he has reposed for sixty-one years and it is more, he expects to add many more years to the record before they are laid away.

Comes now S. J. Bromley, who will be 82 years of age in March. He is the proud possessor of an excellent set of whiskers which have been with him continuously for the last fifty-four years. He resides at Alameda and Willow streets.

J. N. Endicott of 896 East Sixth street and L. Ballou of 502 Jefferson street have developed a tie in the race. Both claim to have worn their respective facial adornments for fifty-five years.

Mr. Ballou is 55 years of age and it has been fifty-five years now since a razor has touched his face. Mr. Endicott started his growth back in 1864 and has been faithful to the same since that date.

East Fifth street, he has side and chin whiskers that have framed a jovial countenance since 1842, or fifty-seven years.

Credit for starting the unique contest falls to Mayor John L. Forkner of Anderson, Ind. and M. F. Skinner of Pomona. In a press dispatch Forkner boasted of a record when he cut his mustache off after wearing the adornment for forty-six years. Mr. Skinner led the challenge and made haste to reply for his upper lip and chin have been hidden from view for fifty years by the sturdy growth which he has worn continuously for that length of time.

Mr. Skinner was not to enjoy his claim to national honor for long, however, for no sooner had his record been set before the public than it was challenged from many other homes throughout this city, and before the first two days had passed there were five others ready to snatch the laurels from him.

MOTOR CARS COLLIDE. TWO MEN NARROWLY ESCAPE DEATH AT ACCIDENT AT ONTARIO.

[EXCLUSIVE DISPATCH.] ONTARIO, July 1.—Leon F. Lucas, prominent rancher of the Cucamonga district, and R. E. Graf of Pomona narrowly escaped death early today when their motor cars collided on West A street in one of the most spectacular accidents ever witnessed here.

Lucas was driving east in a big touring car when Graf turned over a side street. Lucas averted sharply to the left in an endeavor to avoid a collision. He struck Graf's car, a small runabout, and plunged over a five-foot bank on the north side of the street, breaking both right wheels. Graf was painfully cut about the head and his car is a total wreck. Lucas was not hurt.

"Hotel del Coronado," dancing July Fourth and Fifth. [Advertisement.]

MISSIONARY LECTURES. Dr. Allen Moore to Stage Pageant at Ontario Church.

[LOCAL CORRESPONDENCE.] ONTARIO, July 1.—Under the direction of Dr. Allen Moore, for seventeen years a missionary in the Orient, the Ontario Ministerial Union is to present what is known as the great Palestine Pageant next week at the First Methodist Episcopal Church.

Beginning Sunday night with "The Shepherd of the East," Dr. Moore will follow with "The Tower of David" and "Gen. Allenby's Entrance into Jerusalem" and toward the close of the week will present the Turkish situation and the fate of the Turk. Dr. Moore brings a large number of native costumes with him and his first-hand knowledge of conditions in the Far East will be used to advantage.

July Fourth and Fifth, dancing at "Hotel del Coronado." [Advertisement.]

A NEW EXCUSE. [LOCAL CORRESPONDENCE.] EL CENTRO, July 1.—Irving Baldwin, 12 years old, when told by Judge Franklin J. Cole in the Superior Court Saturday that he was a confirmed truant and disobedient replied that he did "naughty things" because he wanted to get to the coast to see his brother.

The juvenile was ordered taken to the State school at Whittier, where he will be detained until he is 21 years of age, or is given his parole by the institutional authorities. His older brother, Louis Baldwin, was sent to the same school about a year ago.

BLAZE OF LIGHT OPENS FIESTA.

Santa Barbara Stages Annual Midsummer Event.

Display of Naval Craft Adds Interest to Scene.

Honor Guests Provided with Lavish Entertainment.

[EXCLUSIVE DISPATCH.] SANTA BARBARA, July 1.—Santa Barbara Channel is radiant with multi-colored lights tonight in token of the formal opening of the first annual summer festa. Such a vivid display has never before been seen on the Pacific Coast.

With the close of day, crowds assembled on the Esplanade del Mar, and as darkness gradually came on hundreds of lanterns seemed to push their way up out of the ocean depths.

The two beacon lights appeared on commercial and pleasure piers in memory of Sebastian Viscaino, first mariner to sail these waters, and Padre Junipero Serra, who first trod these hills. Next came the Venetian water carnival, in which numerous small craft, which make this harbor their habitat, participated. All around were hydroplanes and sub chasers, which the government has sent to Santa Barbara for a week. Against the background lay the flagship Minneapolis, as guardian of the little fleet, displaying itself in front of the maritime footlights.

The big reviewing stand in front of the Belvedere was occupied for the first time last night, and was well filled with pleasure seekers. Earlier in the day Rear-Admiral W. F. Pulliam and staff were entertained at luncheon at the Santa Barbara Club. Franklin Price Knott was in charge of the affair, and President Seth Kenney presided.

While this was in progress, Mrs. Franklin Price Knott entertained the visiting ladies of the navy at luncheon at El Mirasol. Later all went to the Santa Barbara Country Club, where the officers were guests at a tea dance.

Five hydroplanes arrived in Santa Barbara at noon, coming from the naval air station at San Diego. Their flying time was approximately five hours. One stop was made at San Pedro to allow some of the smaller craft to take on "gas." Lieut. O. P. Kilmer is in charge of the planes, all of which are moored in the channel. The big exhibition is daily in front of the reviewing stand. Two sub chasers, the 273 and 275, arrived later in the day.

Alton Hayne of Marysville has arrived in Santa Barbara to be grand marshal of the Spanish parade, which is to be given tomorrow. Hayne was formerly a local resident, and is greatly interested in helping to revive the old Spanish traditions.

INCREASE PHONE RATE. [LOCAL CORRESPONDENCE.] REDLANDS, July 1.—The Southwestern Home Telephone Company, with headquarters here and operating in Hemet, Banning, Beaumont and San Jacinto, announced an increase of rates of 15 per cent under authority of Postmaster General Burleson. The company recently withdrew its application before the Railroad Commission and placed the matter in the hands of the government. The increase will be about 25 cents on each party line phone in the city.

DO SUNDAY-SCHOOL WORKERS GAMBLE?

QUESTION BRINGS DISCUSSION AT SANTA MONICA MEETING.

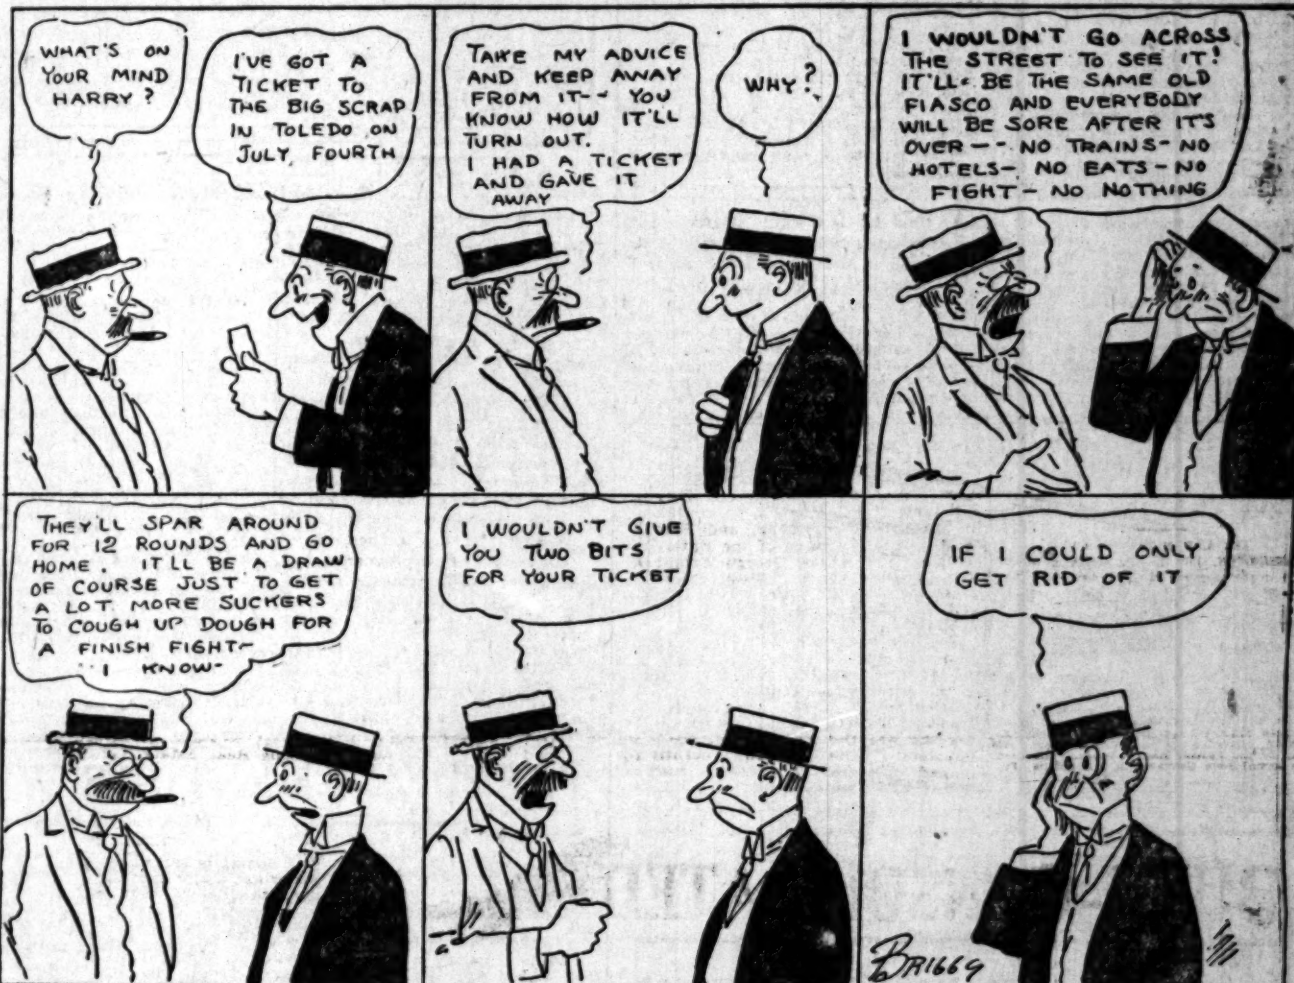

[LOCAL CORRESPONDENCE.] SANTA MONICA, July 1.—Is the giving of reward for Sunday-school attendance a method of gambling whereby the pupil receives something for nothing, or is it an incentive for a higher purpose in life? Disagreement ran high at the summer conference of the Episcopal Church school workers, which held its first session today, in the parish house of St. Augustine-by-the-Sea Church.

The discussion on the question of reward for attendance was raised by Miss Alice King of Long Beach, who told of a successful system there of awarding pins, and of organizing swimming parties for boys.

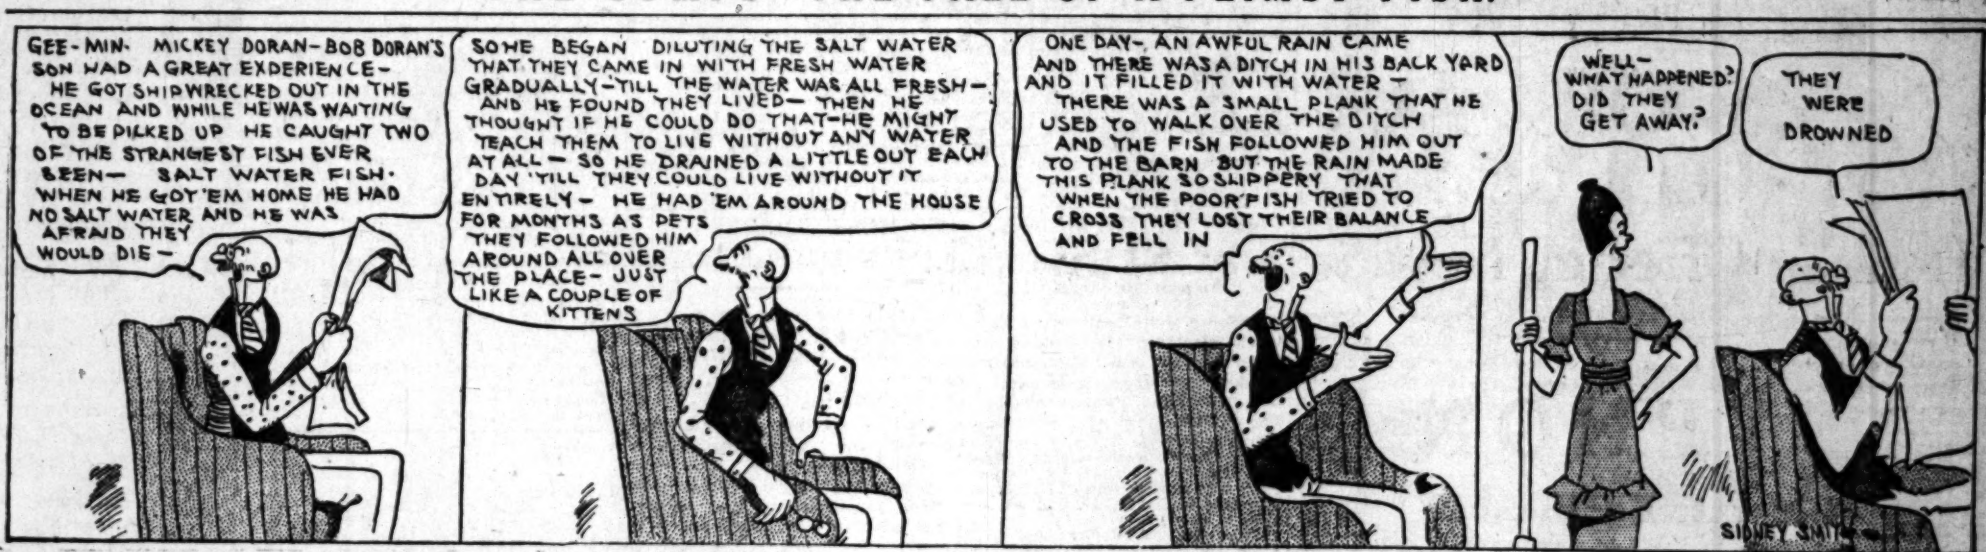

Mrs. R. Benton of Santa Ana declared that the average child is not lacking in the knowledge of, and the desire for, real religious idealism, as it is common to give them credit for, and that the practice of rewarding detracts from the central idea of church life.

"Children know when they are being fooled, and they realize that the desire for real religious idealism is simply a substitute for real teaching."

Rev. R. B. Gooden of the St. Saviour's Church of San Diego replied

COTTON'S LURE
IN RATE FIGHT.Commerce Chamber to Aid in
Attack on Differential.Seattle Gets Business, Due to
"Long Haul for Less."Harbor Traffic Manager will
Handle Case for Us.

Complaining that cotton shipments from the Orient go past Los Angeles Harbor and are loaded at Seattle, because the freight rate on cotton from Dallas to Seattle is the same as the rate from Dallas to Los Angeles, the Chamber of Commerce, in session yesterday, joined its complaint with that of the city and agreed to assist in fighting the case to a finish at the hearing July 14, before the San Francisco district Freight Traffic Committee.

Clarence H. Matson, harbor traffic manager, was named as chairman of the committee which will argue the case. He is to select three others to participate in the discussion. One of these, he stated yesterday, will probably be a Dallas man. It is understood that San Francisco will act in rates on the strength of its geographic location. Seattle is 2362 miles from Dallas, while Los Angeles is 1475 miles from the great cotton shipping center, and the rate to both Coast cities is at present \$1.15 per 100 on compressed and \$1.25 per 100 on uncompressed cotton. Harbor Traffic Manager Matson has asked for a reduction of 74 and 84 cents, respectively, in the case of shipments for Los Angeles, worked out on the basis of mileage. The complaint filed by Los Angeles will ask for the above rate per hundredweight to Los Angeles Harbor and will be applicable to San Diego as well.

It was pointed out that Japanese exporters favor shipping cotton from Seattle because they have their agencies established there, and the distance from there to Japan is a little shorter by water than it is from California ports, whereas, the freight rate from Dallas is the same as to California ports. The opinion was also expressed that unless a considerable reduction in the differential was made steamship lines running from Seattle to the Orient would

WE'RE ON THAT
FREE PORT LISTNew York Convention Puts Us
Among Three Cities to be
Recommended.

A telegram received yesterday from Congressman Osborne advised the Chamber of Commerce that Los Angeles will be one of the three Pacific port cities recommended by the convention now in session in New York considering free port legislation, for the early establishment of a free zone. The Shepherd bill, before the United States Senate, was recommended by the convention as a basis for legislation.

Congressman Osborne, William M. Garland and W. I. Hollingsworth are representing the interests of Los Angeles at the convention, and Mr. Garland has been made a member of the first board of directors. Delegates were sent to the gathering from every harbor city in the country.

doubtless be willing to make up the difference in the freight rates to the shippers, in order to continue shipping cotton from Seattle.

The Chamber of Commerce, presided at yesterday's meeting, and F. P. Gregson, secretary of the Los Angeles Jobbers' Association, took an active part in it. Others present were C. M. Gordon, president of the Harbor Commission; W. A. Wheaton, H. H. Cotton, Clarence H. Matson, Henry S. McKee, W. T. Pratt, Maynard McPhe, Edward F. Browne, Will E. Keller, J. B. Sears, W. J. Simpson, M. G. Scott, C. D. Magee, T. W. McDewitt, Edward M. Fowler, D. Hudson, W. J. Duran, Sam L. Kreller, A. W. Sowers and George B. Carpenter.

FOR JULY FOURTH.

The Boyle Heights Improvement Association, which has charge of the Fourth of July programme at Holmbeck Park, for which the City Council has appropriated \$80 for hiring a band, has sent to the Council an invitation for all its members to participate in the programme, or else to designate one of its members as a special representative for this purpose.

REY :: EL :: SANTA :: ANITA :: IS :: DEAD.

"Lucky" Baldwin's Famous King of Turf Buried with Honors.

Mrs. Anita Baldwin and Rey El Santa Anita.

Mrs. Baldwin is wearing her uniform as honorary colonel of the One Hundred and Sixtieth Infantry.

REY EL SANTA ANITA, king of
the turf, is dead.

The most famous racing horse in California history, pride of the late E. J. (Lucky) Baldwin, died, as he lived and raced, game. Rey El, as he was familiarly known from the California coast to the Atlantic shores, was a winner of the American Derby and of countless races throughout the country.

It is estimated by Mrs. Anita Baldwin, daughter and heiress of "Lucky" Baldwin, that the king of the turf won more than \$250,000 in purses.

He won the American Derby at Washington, Park, Chicago, coming down in front in the then fast time of 2:26 and, incidentally, winning a purse of \$19,750.

Rey El was famous for his beauty, his noble, grace and dignity, and was the admitted king of all thoroughbreds. In 1906 he was winner of the Broadway stakes in New York and of leading purses at Louis-

ville, St. Louis, Little Rock and other prominent tracks.

HONORS ABROAD.

In 1907, he was leased by Richard Croker, who took him to England where he attracted world-wide attention both as a race-horse and a famous sire. After adding to laurels already won, he was brought back to America and finally to his birthplace at unique, picturesque Santa Anita Rancho, a few miles from Los Angeles.

Of recent years the king of the turf, though growing old, held his own magnificently in spirit, and carried himself with the grace and pride, and with the "pep" of a 2-year-old.

Only five years ago, when he was 24 years old, he won the first prize at the Panama-Pacific International Exposition, in San Francisco. At that time, officials of the exposition urgently besought his appearance there, and finally, despite his age, Mrs. Baldwin consented to send him to the exposition. Besides being awarded first prize, he was adjudged senior champion and grand champion thoroughbred stallion, in

competition with horses of his kind from all over the country.

He was on his feet, so to speak, when death overtook him. Until a few hours before his death he was well and in good spirits. Then he was seized with an attack of colic and died.

DEATH UNHERALDED.

Due honor was paid to the proudest, most famous racing thoroughbred of the State yesterday. With his racing colors, records and coverings wrapped him about, the beautiful Rey El, king of the turf, was buried beside Grimstead, another of "Lucky's" racers and second only to Rey El.

Side by side the two kings of the turf now lie, in the beautiful park in front of the home where he spent his childhood and where later he was universal favorite.

And their graves will always be kept green by Mrs. Baldwin, who, along with these two internationally famous horses and several millions which she inherited when her father died, inherited his great love of horsemanship and all his pride in Rey El Santa Anita.

PASADENA DENTISTS WIN.

Pasadena's Dental Society was awarded the much-coveted silver loving cup yesterday in the competitive clinic at the convention of the Southern California Dental Association, San Diego captured the cup at the last convention.

Pasadena's clinic was on "Laboratory Technique of Full Denture Construction," as taught by Russell W. Terch. The award was made for completeness and neatness of the clinic. Drs. H. C. Fiesch, A. T. White, J. W. Martin and H. M. Carey were the clinicians.

Dr. W. E. Silber, president of the association, presented the cup to the Pasadena dentists at the barbeque dinner given at Griffith Park. In addition to the dentists attending the convention, there was a large attendance of their friends at the barbeque, which was given by the Entertainment Committee, of which Dr. J. Elton Lang is chairman.

CITY MAKES MONEY.

Nets Twenty Thousand Licensing and
Impounding Animals.

The city has a real money maker in its machinery for looking after the dogs, cats, sheep, goats and larger stock, through impounding of strays, licensing certain animals, etc. The annual report of the Municipal Humane Animal Commission, sent to the City Council yesterday, shows that the total receipts for the fiscal year just closed were \$41,213; the expenses were \$18,717, and the balance is \$22,502.

This municipal department looked after the issuance of licenses for 17,832 dogs. At the city pound 2352 were impounded during the year, and 2032 of these were destroyed. Cats to the number of 3430 were also destroyed, and 211 head of stock were impounded.

In its humane animal work the commission and its representatives caused twenty arrests and secured eighteen convictions.

SPOUSE SPOKE OUT.

But Too Voluble on Separating, Says
Wife Getting Divorce.

Marriage tied the tongue of Frank K. Volk, it may be inferred from the testimony of Mrs. Mathilde Volk in separate maintenance proceedings before Judge Taft yesterday. She says he did not speak to her for nearly a year before their separation.

Separation seems to have united it, because, she said, he verbally abused her in the presence of their children three months later. They were married in San Francisco in 1896. The court ordered Mr. Volk to pay his wife \$20 a month until the suit can be tried.

FIGHTER RETURNS.

Deputy United States Marshal O'Leary, who has been connected with the office of United States Marshal C. T. Walton since Shelley Walton, his brother, went overseas, severed his connection with the office, yesterday, as Shelley Walton will resume his old place he occupied before he joined the engineers for service in France.

NO MORE SOLDIERS
WANTED FOR FRANCE.

ENLISTMENT TO STOP NEXT
SATURDAY, BUT REGULAR
ARMY ASKS RECRUITS.

The War Department has issued orders to recruiting officers throughout the country, to discontinue enlistment of men for service in France after midnight next Saturday. Instructions have also been received not to accept any more men for the cavalry in Hawaii, although service in the engineers, Medical Department, Signal Corps and Coast Artillery are still open.

This is taken to indicate that enlistment in the regular army is popular with the young men of the country, most of whom have put in from six to eighteen months with the colors under war conditions and realize the benefits to be derived from such service. It is not the old-time peace army or the old type of military service to which these men are going. The army needs the highest type of man that can be secured and will make every way so as to attract ambitious and capable young men to its ranks.

Every opportunity will be offered to those who wish to advance and it will be possible to gain an education or learn a trade whereby a soldier will have an increased earning capacity upon returning to civil life. It has been proved that 90 per cent. of the young men who served in the army have been benefited to such a degree that after being discharged they have been able to take better and more responsible positions than they could have held before they enlisted. All this proves that the army is good, that service in its ranks is beneficial, and that the young men who have no dependents can make no better choice than to go into the service.

COUNTY BUILDING
PROJECTS ARE MANY.

PLANS INVOLVE SPENDING TWO
HUNDRED THOUSAND DOL-
LARS ON WORK.

Col. Bill Davidson, head of the county mechanical department, reports a busy session in his balliwick. He is preparing plans for many improvements, the aggregate value of which is nearly \$200,000.

Six cottages for nurses will be constructed at the County Hospital, capable of housing twenty nurses each. They will comprise rest rooms, infirmaries and recreation rooms. Two cottages will be constructed at Olive sanatorium. The new psychiatric building will be added to the County Hospital, the cost of which will be \$70,000.

Two buildings will be built at the county farm, one an addition to the old lady's home and one to the administration building. The cost is estimated at \$40,000.

Changes will be made in the County Auditor's office to afford additional desk room. More room is required in the County Treasurer's office. These jobs Col. Davidson is looking after.

The Victory Button.
FOR SERVICE MEN.

Bronze Insignia for Fighting Men
are now ready for Distribution.

Col. A. M. Wetherill, who is in charge of the recruiting service in this district, yesterday announced the receipt of a consignment of bronze Victory buttons. They are now ready for distribution.

The bronze Victory button is being given to all honorably discharged soldiers who served during the period of the war, and all such men who will call at the local recruiting station in the San Fernando Building and present the original copy of their discharge, will be given the button.

Soldiers who have received wounds will be given a silver button of the same design, but at the present time no silver buttons are available and only bronze ones can be distributed.

Hamburger's
ESTABLISHED 1881
Home 10063 — PHONES — Bdw. 1168

This Store Will Be Closed All Day
Saturdays During July and August

—And will be closed Friday, July the 4th.

—Just two more shopping days this week—plan to share the values of the July Clearance Sale today.

Our New Grocery
On the 4th Floor

—The new Grocery, just completed, on the Fourth Floor, adds 10,000 square feet more of selling space to this already newly remodeled floor.

—Hamburger's new Grocery is one of the most complete departments of its kind in the city, equipped with every modern appliance for the proper care of foodstuffs.

—It is light, airy and spick and span—on the Fourth Floor, high above the dust line of the city streets—easy of access, just in front of the elevators.

Superior Service, Quality and Merchandise

—and many additional service features, including a improved delivery service, will be added.

—A complete stock of staple and fancy groceries, Bakery Goods and Meats, and a new Delicatessen with the season's every delicacy.

CAUGHT AFTER RUN.

House Mover Leads Policemen in
Improvised Stoopchase.

Elmer Weber, 35 years of age, wanted at Fresno on a charge of grand larceny was arrested yesterday by Deputy Sheriff Sepulveda and Cleveland after a spirited chase that left remnants of official garments flapping on a vicious barbed-wire fence.

Weber, who is a house mover, hid sixteenth street when the officers approached. They ordered him to come out and he strategically retired to the farther side of the dwelling and across lots. In the chase, that led over the barbed-wire fence, he distanced the pursuers, but promptly lost all advantage by careening around a corner at top speed, directly into Mr. Sepulveda's arms.

He was taken to the County Jail.
